NEW TRIBUNE OFFICE IS A BRIL-
LIANT SCENE

GREAT PRESS DRAWING CARD

Crowds Watch Three-decker,
and Carry Away Linotype Slugs Bear-
ing Names and Addresses

An epoch in the newspaper history of La Crosse, was marked by the big reception tendered by The Tribune company last evening to the people of La Crosse, when The New Tribune Building, with its splendid equip- ment and facilities was thrown open for inspection.

The success which attended the re- ception was truly a testimonial of the esteem in which The Tribune is held by the people of La Crosse.

Shortly after 7 o'clock the crowds began to arrive and from that time until nearly midnight the building was crowded to the doors. The office, reportorial and mechanical forces guided the visitors through the various departments beginning with the business offices to the mechanical de- partment. Here for more than three solid hours three Linotype operators were busily engaged demonstrating the operation of the Mergenthaler Linotype machines, by means of which the type for The Tribune is "set up." As many of the guests as could get near the machines were given a Linotype "slug" bearing their name, or name and address, as a souvenir of the reception. Between 4,000 and 5,000 of these slugs, ag- gregating 500 pounds of Linotype metal, were given to The Tribune guests. In the composing room the visitors were shown how the news is transformed from "copy" to "type," how the "type" is "proofed," and how the pages are made up ready for the stereotyping process. A feature which interested all of the visitors was the new matrix roller, and double steam table, by means of which the paper forms of the pages are made by touching a lever, electricity operating the 4 machine, and the steam table drying the paper form and making it ready for the casting room. In the casting room the guests were shown how the paper "mats" are placed in a water cooled curved plate caster, how the plates are trimmed, shaved and made ready for the big Goss "three-deck press, upon automatic, electrically operated machinery. Perhaps the most attractive of the many inter- esting features was the giant press. The twenty-four page edition plates remained on the cylinders and the visitors were given an opportunity to see the wonderful machine in op- eration. The guests found great in- terest in the Kohler system of elec- trical control by means of which the h gspumehe THHTHTHT HTHTHT huge machine is operated from five "stations" attached to various parts of the press and with invisible pow- er. The big motors and the elec- trical attachments which operate and control the machine are all under the flooring, the only mechanism being visible being the Kohler switchboard, which is truly a marvelous contriv- ance. Visitors passed through the press room by the hundreds, secur- ing a copy of The Tribune, and watching great rolls of white paper being fed into the machine at one end, and coming out at the other end complete and perfectly printed twenty-four page papers.

In the editorial rooms Cartoonist J. M. Callahan, whose intimate sketches formed an entertaining part of The Tribune twenty-four page edition yesterday, attracted attention drawing news cartoons. While Artist Callahan was at work the editorial rooms were jammed with interested spectators, some even stepping upon the desk in order to get a better view of Mr. Callahan at work.

A thousand carnations provided for the reception were entirely exhausted and a second supply was distributed, and also exhausted before the re- ception was half over. Girls at the door pinned flowers upon the guests and great vases behind the counters pre- sented a pretty scene.

So large was the crowd that it was almost impossible for many of the guests to get in, until those inside had viewed the place and departed. In some instances people had made appointments to meet at The Tribune reception. Arriving a trifle late some of them were unable to get through the crowd, and seeing friends inside went to nearby tele- phones to apprise them of their pres- ence.

The plant was brilliantly lighted throughout and several of the de- partments were in full operation to illustrate to the visitors how a news- paper is made. The crush lasted un- til nearly 11 o'clock when there was a brief breathing spell. When the "Virginia" was concluded at the theater, the rush began again, a large number of the theater-goers, taking advantage of the opportunity to visit The Tribune plant after the play.

TALKS WITH THE PRESIDENT

Says in an Interview Today That Tar-
iff Tinkering Caused the
'93 Panic

WASHINGTON, D. C., April 20.—Ex-Secretary Shaw, now president of the Carnegie Trust company of New York, saw President Roosevelt today and talked over the financial situa- tion and politics. On leaving the White house, Mr. Shaw was asked regarding the financial situation and business outlook. He said there would be no collapse, though there were signs of some cessation in business.

Mr. Shaw considers conditions much different now from those pre- vailing in 1893. Then, Presi- dent Cleveland was playing politics and making the country believe there were things wrong with the mon- etary system and that the tariff had to be revised.

Mr. Shaw declared that had Presi- dent Cleveland prevented congress from overhauling the tariff in 1893, there would have been no panic.

Mr. Garbers was driving through the North side on his way to town with a load of oats, and as he crossed Avon street he did not see a rapidly approaching street car until he was directly in front of it. He quickly swerved his team and brought the horses off the track, but this move- ment was executed so quickly and suddenly that the little girl was thrown from her seat directly onto the pavement in front of the moving car.

The girl lay as if paralyzed on the tracks unable to move, when the car was brought to a stop, with the fen- der touching her clothing.

LA CROSSE MERCHANTS MEET

Monday Morning at Doerflinger Store
to Complete Arrangements for
Progressive Step.

John S. Creswell, known to all commercial organizations in the United States as an authority on matters pertaining to the rebate sys- tem, arrived in La Crosse at noon from St. Paul.

Mr. Creswell's visit to La Crosse is the result of correspondence with prominent local business men, cover- ing a period of several months. Many of our merchants have observ- ed the tremendous trade drawing in- fluence of the rebate system during visits to other live cities, and have long believed its introduction in La Crosse would add an immense volume of business which at present is a stranger to this city.

Experts report that in non-rebate cities the total trade enjoyed by the larger city does not under the favor- able conditions exceed 7 per cent of the total within twenty-five miles. In those cities where the rebate system operates in force from 30 to 35 per cent of the total trade within twenty-five miles is centralized in the rebate town. The rebate system operates in one hundred and sixteen American cities. It has attained its highest development and greatest efficiency in Indianapolis, Peoria, Terre Hotte, Buffalo, St. Joseph, Springfield, Ft. Wayne, Oklahoma City and in prac- tically all American cities distinguish- ing for thrift, progressiveness and high order of commercial intelligence.

Mr. Creswell stated to a Tribune re- porter that he had assurances of suf- ficient co-operation to assure the or- ganization of the rebate plan in La Crosse and that at the end of sixty days, every house in the city which caters to out-of-town trade, would voluntarily come into the association.

Mr. Creswell will proceed at once to organize the rebate system in the city. The La Crosse Rebate associa- tion will be a purely local organiza- tion, without present affiliation with any other body. Mr. Creswell's only connection with the association will be that of an expert in organizing and arranging the various details. After his work is completed and ap- proved by the new association, he will be paid and his connection with the association will end.

What the business community has for years been doing quietly and in regularly will hereafter be done pub- licly and systematically, says a man who favors the plan. That is, the paying of the car fare of non-resident shoppers. Under the plan as followed by the past—or rather lack of plan—the business element has been pay- ing large amounts in the aggregate without any of the advantages that come from co-operation.

For this and other trade reasons it has been determined to organize the rebate system as practiced in prac- tically all live American cities. By this plan becomes publicly known that everybody who trades in La Crosse will be entitled to a refund of the amount he is out for car fare in visit- ing this city to spend his money. Ex- perience has demonstrated that, with a few exceptional cases omitted, 5 per cent will cover all fares in individual cases and that the average is slightly in excess of 2 per cent.

The rebate system in its practical operation is simplicity itself as far as the public is concerned. The only complexity is in the matter of per- centages as affecting the various members of the rebate system and this is handled exclusively by a bank. Actually the only man who pays any- thing towards these rebates is the man who got the shopper's trade, and he pays in the exact proportion of the cash trade he received. But credit- facility has ever arisen in the rebate system and that is the occasional effort of a number of the larger merchants to confine the plan to themselves and shut out the smaller dealers. This feature has been fully canvassed, and it has been determined that the ad- vantages of the system will be open to every merchant in the city who wishes to co-operate. The banks which pay the rebates recognize only the members of the rebate plan, so that in order to have his fare re- funded the out-of-town shopper must trade with the members of the asso- ciation only.

The system which will be orga- nized in La Crosse is designed prom- inently to advance the interests of the city as a whole. By this plan every merchant who comes in will have an equal chance at the new trade with every other. It is desired to make the as- sociation so extensive in its member- ship, and so varied in the interests represented, that the visitor will have a lot of the best stores open to him and will be able to supply every human need from among its members. To achieve the greatest good for the city it is necessary that every merchant co-operate. Petty jealousies should be buried and the spirit of "boost" should actuate every man who is will- ing to see this city take the place to which it is entitled among the live aggressive, up-to-date cities of this country.

ESCH IS AFTER LENROOT'S MEN

STARTS CAMPAIGN TO WIN OVER
MR. EKERN

SENATORIAL SITUATION CLEAR

Next Week May See the Expected
Break and Everything Looks Fa-
vorable for La Crosse Man

(Special Tribune Dispatch.)
MADISON, Wis., April 20.—Be- fore leaving for La Crosse last night Congressman John J. Esch held a conference with his friends. It is his plan to get his supporters at work in his own district, and by letters and telegrams bring the Ekern and what Lenroot following there is, over to his column. This if accom- plished, will mean the election of the La Crosse man.

Situation Clearing

MADISON, Wis., April 20.—The senatorial situation has at last be- gun to clarify and the ultimate con- test lies between Congressman John J. Esch of La Crosse and former State Senator W. H. Hatten of New London.

While Stephenson intends to re- main in the race to the finish, the expected withdrawal of Irving L. Len- root, who has been unable to throw his support to the Marquette lum- berman, has left his supporters pledged to Esch and Hatten for second choice.

From senators who are familiar with the situation it is learned today that the withdrawal of Lenroot will be made immediately. It is suggest- ed that it will be published in the Milwaukee party organ either Sunday or Monday morning. Lenroot had a long conference with Speaker Ekern last night and an attempt has been made through a canvass of his supporters to get them to support Mr. Stephenson. That it has been un- successful is proved from the fact that it is said seven of his supporters are pledged for John J. Esch, about as many to Hatten and only two or three to Isaac Stephenson.

Further proof that the fight will lie between Esch and Hatten is gleaned from the line-up of the Ste- phenson men who so far in the con- test have been willing to desert him at any time. As the following of Lenroot is in no way pledged to Congressman Cooper it also seems probable that his withdrawal from the race is imminent.

The Esch supporters are well in- formed of the situation and in discus- sion last evening one of them de- clared that the only one to be feared was Mr. Hatten, who was considered as a compromise candidate by all the other factions. Col. O. G. Mun- son declares, however, that the sup- port of the other candidates will go to Congressman Esch, who he be- lieves will come out of the race suc- cessful. He says that his long and distinguished public career entitles him to the honor, and his experience in congress would give him a better showing in the final contest than that of Senator Hatten.

Among all candidates it is believed that the senatorial contest will be settled by the last of next week. A Milwaukee ex-senator who has been here for several days looking over the situation declares it is certain that the caucus Tuesday night will decide the matter, and that in no case will the final determination of the election be deferred later than Thursday. He explained that both the Stephenson and Lenroot following were disorganized and that the strong Esch organization in the senate gave him every possible opportunity of winning the contest.

Despite all the rumors that Lieu- tenant Governor Connor is taking an active hand in the contest, his failure to force Governor Davidson into the field and the vote of Theodore W. Brazeau, his home senator, for Congressman Esch, indicate that if any support is given it will be for the La Crosse congressman. Gov- ernor Davidson declared in an inter- view that he could not or would not become a candidate.

A threat is being made by the sup- porters of the Stephenson men, prin- cipally by "Bob" Luscombe, a well known lobbyist, that if the Mar-quette lumberman is not elected at this time he (Stephenson) will with- draw his hands. This it is pointed out to the Lenroot following, will leave them without an organ with which to voice their views in the state.

REAR-ADMIRAL HICHBORN PRAISES PE-RU-NA.

Gentlemen:—After the use of Peruna for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic.

Very respectfully,
PHILIP HICHBORN.

REAR-ADMIRAL NICHBORN.

IF ALL the men and women who have used Peruna and found it beneficial should write testimonials giving the plain facts, we would be overwhelmed with certificates.

But only now and then one who has been benefited by Peruna stops to give any public acknowledgement of a cure.

Various considerations prevent people from writing testimonials for publication. Inordinate modesty, oversensitiveness and business considerations forbid many people from writing testimonials who otherwise would be glad to do so.

All Classes Represented.

But in spite of all these considerations, thousands of people without any solicitation whatever do write testimonials for Peruna.

We receive these from men of high degree and low degree, from the army and the navy, from the hall of congress, from the colleges, from high officials in the church, from the society belle and the washerwoman, from the military man and the civilian.

We have never put into print but a small per cent. of those actually received.

Sincere Testimony.

Frank Schneiberg, the recruit from Detroit, went the whole route for Milwaukee and there was a Columbus youngster, Geyer, with the Lancaster O., pennant league club last year against the Brewers. In each and every inning the Senators so placed themselves that a hit would have meant a run, still they were able to score in but three of the nine. The score:

HIS RECORD IS ESCH'S STRENGTH

The optimism with which the active supporters of Hon. John J. Esch are imbued is a splendid indication of the seriousness of his candidacy for the United States senate. His friends everywhere are delighted with the situation as it is reflected to them through the opinions of those most intimately connected with his campaign.

Where public record to be made the basis of a choice of senator to succeed Mr. Spooner, Mr. Esch would be named without contest. His name is attached, as proof of his deeds, to two of the most important pieces of legislation that have been enacted in congress since the Civil war. The Esch-Townsend bill is the real railroad rate law. The Esch-La Follette Hours of Service law is of equal importance. Eliminating less weighty things Mr. Esch has done, these place him indisputably at the head of the procession.

Next to Mr. Esch in meritorious public service is Mr. Hutton, the power that directed the enactment of the Wisconsin state railroad legislation. He is a great man.

But, so far as political machinery is concerned, these men are not considered. Mr. Stephenson is first choice. Why? Because he supported Senator La Follette's excellent program with money. Again, why? To get even with Philo Sawyer and others who gave him the worst of a political deal. "Uncle Ike's" sole claim is that he has bought the toga.

Lenroot is a good man, but with no record attesting his efficiency. He sought the nomination for governor and carried but two counties in the entire state. It cannot be urged that by his election a popular demand would be answered, or that popular representation would be afforded.

But, thanks to the education to which Senator La Follette has himself contributed, the legislature is not apt to stand and deliver when the command is given. The present deadlock shows that Mr. Esch is, as he should be, the leading candidate. He occupies a position that is recognized by great newspapers all through the country as entitling him to first consideration. There is but one danger to his candidacy. It is the danger that when other candidates give up, they may say: "I can't win this time. I may next time. If Esch is elected, he will hold the office long. If Stephenson is elected, there will be another vacancy in two years, and I will have another chance then."

It will be distinctly reassuring if so venial a consideration is not permitted to influence the Wisconsin legislature. It cannot unless the individual candidates hold such sway over their followings as to enable them to dictate the perpetration of an act the impropriety of which is beyond question. If legislative honesty can be depended upon to eliminate Stephenson, the public wish will be gratified in the election of John J. Esch.

A PUBLIC DEMONSTRATION.

The PUBLISHERS are immensely grateful to the citizens who were present at the reception tendered at THE TRIBUNE office last night. It was a splendid gathering. It was doubtless the most largely attended reception ever given in La Crosse. It resolved itself into a great demonstration.

About 5,000 people passed through THE TRIBUNE plant during the evening. This is an estimate, but is conservative. Of a score of people who were in the building from the beginning until the end of the exhibition not one placed the number of visitors at less than 4,000.

It was a terrible jam at times, but the crowd was good natured. As one gentleman put it, "the carnations didn't get to first base." One hundred and fifty dozen of them slipped away in the first hour and that was all there were in the city. But the white metal held out handsomely, and for four strident hours three operators were constantly busy casting up souvenir linotype slugs bearing the names of guests. Each of these slugs weighs approximately over an ounce, and the scales this morning attested the fact that a little more than 500 pounds of metal, representing between 4,000 and 5,000

linotype slug souvenirs, had been carried away.

A demonstration of this sort is calculated to inspire a variety of emotions. We are gratified beyond measure over the results. We knew THE TRIBUNE had lots of friends, but that so many of them were so deeply interested in its success as to devote an evening to this expression of their good will was a most pleasant surprise. We believe every visitor of last evening left with the impression that THE TRIBUNE is the paper of fair play and independent citizenship more deeply implanted than ever, and with a friendship for the paper and its publishers more than ever firmly fixed.

As to the equipment, which was the entertainment, there need be no words expended. The people saw it, and seeing is so much better than being told. Suffice to say that widely traveled men having intimate relations with newspapers, substantiated the management's statement that this is the finest newspaper plant to be found in a city the size of La Crosse anywhere in the United States.

To digress for a moment, and "talk shop," we desire to call the attention of the merchants and business public to a feature of the reception of material concern to them. This reception was advertised by two 3-inch display "ads," two news readers and an editorial. That advertising brought 5,000 people to THE TRIBUNE offices. It is a case where the exact result of the advertising was shown, for under ordinary circumstances not to exceed 100 people would enter the offices during a single evening. Any merchant knows the value of his business of getting 5,000 people into his establishment. The results last night show conclusively that many people can be called together by an advertisement in THE TRIBUNE. Therefore all any merchant need do is to advertise something in which 5,000 people are as deeply interested as they were in THE TRIBUNE opening, and publish the advertisement in THE TRIBUNE, to get the same results that were secured last evening.

A little more "shop": The public need but glance at any issue of THE TRIBUNE to be convinced that La Crosse is to have a magnificent newspaper, one worthy of patronage and fit to compete with the daily papers entering this field from the great cities. In yesterday's 24-page issue there appeared approximately 90 columns, or 1,800 inches, of display advertising and 78 columns of news and news features. The advertisements were not "medicine slop," they were the "ads" of La Crosse business men extolling the legitimate business of La Crosse. It was a world-paper in its news, and a La Crosse paper in its advertising. It is THE La Crosse newspaper. It stands for two things: First, for La Crosse; second, for greater La Crosse.

"Thanking you, one and all, for your kind attention," etc.

We suggest that there are in the present council men who are not so enslaved to politics as to fear action looking to making the Mississippi wagon bridge free.

There is a growing suspicion that there is something more sinister than neglect behind the forgetfulness of the legislature regarding the municipal utility control bill.

The picture of Hawley sliding to third is calculated to inspire the belief that the champs have been incorporated with the ice trust.

Under the urge of harmonious effort La Crosse is likely to become afflicted with growing pains.

AUTOMOBILE SPEED LIMIT.

(Evening Wisconsin.)

The bill for the regulation of automobiles which has been reported in the assembly by the committee on state affairs makes a maximum speed permissible on public highways ten miles an hour in cities and twenty miles an hour in the country, with the provision that in the country as well as in the city ten miles shall be the highest speed permissible after dark. There are strict provisions regarding lamps and more stringent penalties for non-compliance than are provided in the present law.

Certainly something is necessary to protect the public from reckless automobilists. Whether the best method is to enforce a speed limit law or to hold the automobilists to strict accountability for any damage that may result from their free use of the roads is a matter of dispute, and can not be settled to the satisfaction of all parties till there are more data to go upon than at present.

The bill which the assembly committee has reported is the result of an earnest effort on the part of men who have carefully studied the problem and are anxious to solve it fairly.

Hypnotists

Herbert L. Flint is the first hypnotist to be called in a criminal case and have his testimony accepted as that of an expert. The facts that they do are simply marvelous and we may well expect a packed house when they come to this city. The Flint is past masters in the art of suggestion, especially that part pertaining to provoking laughter. They will open their engagement at the La Crosse theater tomorrow night.

EXPERT MEDICAL TESTIMONY

(Washington Star.)

Members of the medical profession with a leaning toward the study of mental diseases are beginning to realize that the "expert alienist" business has been rather overworked and that a popular prejudice has set in against the hiring of specialists to testify in murder trials in which the insanity defense is introduced. In Philadelphia recently one of the leading specialists in brain troubles was interviewed on the subject and expressed himself strongly as favoring a new system of ascertaining the mental condition of defendants in such cases. He holds that it is now necessary to abandon the extreme method of ascertaining and seek the judgment of nonpartisan boards of specialists named by the court in all cases in which the state of mind of an individual is brought into question.

The Rebate System.

Justice, as administered in Arizona some years ago, formed the kernel of many more or less amusing stories. A man was sentenced to pay a fine of \$10 or spend ten days in jail. He had only \$3, and the court accepted the amount in lieu of three of the days allotted for his imprisonment. By some carelessness on the part of the jailer the man was detained in jail for the full ten days, and when set free he demanded redress for his wrongs.

"You'd ought to have some allowance and return made," the court admitted, "but we don't see any way to do it unless you get sentenced again for something; then we could give you three days for a kind of rebate. That's the only way to fix it up square."

The circuit court of Janesville has refused to dismiss the action of Winifred Fifield against the Milwaukee street railway for \$25,000 damages.

The Shoe Pinched Him.

"At a banquet the late Senator Gorman," said a newspaper correspondent, "was once berated passionately by a western drover, who thought himself accused of corruption, when, as a matter of fact, he had not been accused at all.

"Senator Gorman got up and explained that he had made no accusation against the other.

"Why," he went on with a loud laugh, "you remind me, friend, of old Harry Dorsay of Sassafra's."

"Then he explained that Harry Dorsay, at the age of seventy-two years, married a young wife. A Sunday or two after the wedding a widower asked the minister to pray for him, as his own wife had just died. The minister in his prayer, therefore, did not fail to remember 'our aged and grieving brother, upon whom the heavy hand of sore affliction has so lately fallen.'

"At these words old Harry Dorsay, red and snorting with rage, rose from beside his girl wife.

"It may be a sore affliction," he growled audibly, as he left the church, "but I'll be hanged if any man's going to pray for me in public that way."

The Bird-Lover.

The good lady was passionately fond of birds. She was a trifle deaf, but that did not matter. She enjoyed the singing of the feathered creatures all the same.

There was a peculiar sound from the direction of the woods as she sat pensively by the drawing room window communing with nature. She considered for a minute and then concluded, "That must be a thrush."

"You probably know many of the bird notes living so near the woods and in such a quiet spot," she said to the friend in whose country house she was staying. "Can you tell me what bird that was?"

"Oh, that," remarked the friend briefly, "is our goat. We shall have to move him farther off."—Tatler.

SYNOPSIS.

CHAPTER I—Bob Brownley creates a panic in Wall street. He is a friend of Jim Randolph of Randolph & Randolph, bankers and brokers. Brownley and Randolph had gone to college together and entered the employ of Randolph's father at the close of college days. Brownley is a Virginian by birth. Beulah Sands, daughter of an old Virginia house, calls on Brownley and tells him her father has been practically ruined by the stock operations of Reinhart. She hopes to utilize her own money in Wall street in relieving her father's fortunes before his condition becomes known, and asks for employment in the office that she may have an opportunity to better understand how her money is invested. She does not want it used in a purely Wall street gamble, but in the buying and selling of legitimate securities. Brownley agrees to help her and falls in love with her.

CHAPTER II—Brownley plunges in sugar stock. He uses the money of Miss Sands, his own and in addition is backed heavily by the Randolph millions. His coup seems successful, and he tells Miss Sands that she has cleared \$1,800,000. The market had not closed.

CHAPTER III—Barry Conant, head broker for Standard Oil and sugar interests, suddenly begins to sell "sugar." In the midst of a panic he breaks the market and with its fall carries away the earnings and much of the capital of both Miss Sands and himself. A pretty love scene occurs between the two at the office when Bob attempts to tell her the terrible truth of their fall. Brownley takes a trip to Virginia.

CHAPTER IV—Beulah and Bob become engaged. Randolph wants to loan her father the money to meet his obligations. She refuses. Bob figures on how to beat Wall street at its own game. Sugar takes another sensational spurt upward, but Brownley keeps out.

CHAPTER V—The "bulls" toss sugar to record breaking point, and the "street" goes wild. Barry Conant, for the "system," pushes prices up and up, and a wonderful clean-up is promised when the orange closes, Thursday, November 12. Sugar opens higher Friday morning, November 13. When the price had passed all bounds Brownley steps into the pit and begins to sell. He sells every share "the system's" brokers will take, and pounds the price down and down until failures are of momentary occurrence, and "the system" has lost millions. He has made millions for Beulah Sands and her father.

A hideous picture seared its every light and shade on my mind, through my heart, into all my soul. A frenzied-finance harvest scene with its gory crop; in the center one living-dead, part of the picture, yet the ghost left to haunt the painters, one of whom was already cowering before the black and bloody canvas.

Well did the world-artist who wrote over the door of the madhouse: "Man can suffer only to the limit, then he shall know peace." I understand the wondrous wisdom of his God. Beulah Sands had gone beyond her limit and was at peace.

The awful groaning stopped, and an ashen pallor spread over Bob Brownley's face. Before I could catch him he rolled backward upon the floor as dead. Bob Brownley, too, had gone beyond his limit. I bent over him and lifted his head, while the sweet woman-child knelt and covered his face with kisses, calling in a voice like that of a tiny girl speaking to her doll: "Bob, my Bob, wake up, wake up; your Beulah wants you." As I placed my hand upon Bob's heart and felt its beats grow stronger, as I listened to Beulah Sands' childish voice, joyfully confident as it called upon the one thing left of her old world, some of my terror passed. In its place came a great mellowing sense of God's marvelous wisdom. I thought gratefully of my mother's always ready argument that the law of laws, of God's and nature, is that of compensation. I had allowed Bob's head to sink until it rested in Beulah's lap, and from his calm and

steady breathing I could see that he had safely passed a crisis, that at least he was not in the clutches of death, as I had at first feared.

Bob slept. Beulah Sands ceased her calling and with a smile raised her fingers to her lips and softly said: "Hush, my Bob's asleep." Together we held vigil over our sleeping lover and friend, she with the happiness of a child who had no fear of the awakening, I with a silent terror of what would come next. I had seen one mind walled to the unknown that day. Was it to have a companion to cheer and solace it on its far journey to the great beyond? How long we waited Bob's awakening I could not tell. The clock's hands said an hour; it seemed to me an age. At last his magnificent physique, his unpoisoned blood and splendid brain pulled him through to his new world of mind and heart torture. His eyelids lifted. He looked at me, then at Beulah Sands, with eyes so sad, so awful in their perplexed mournfulness, that I almost wished they had never opened, or had opened to let me see the childlike look that now shone from the girl's. His gaze finally rested on her and his lips murmured "Beulah."

"There, Bob, I thought you would know it was time to wake up." She bent over and kissed him on the eyes again with the loving ardor a child bestows upon its pets.

He slowly rose to his feet. I could see from his eyes and the shudder that went over him as he caught sight of the paper on the desk that he was himself; that memory of the happenings of the day had not fled in his sleep. He rose to his full height, his head went up, and his shoulders back, but only from habit and for an instant. Then he folded Beulah Sands to his breast and dropped his head upon her shoulder. He sobbed like a father with the corpse of his child.

"Why, Bob, my Bob, is this the way you treat your Beulah when she's let you sleep so your beautiful eyes would be pretty for the wedding? Is this the way to act before this kind man who has come to take us to the church? Naughty, naughty Bob."

I looked at her, at Bob, in horror. I was beginning to realize the absolute deadness of this woman. From the first look I had known that her mind had fled, but knowledge is not always realization. She did not even know who I was. Her mind was dead to all but the man she loved, the man who through all those long days of her suffering she had silently worshipped. To all but him she was new-born.

At the sound of "wedding," "church," Bob's head slowly rose from her shoulder. I saw his decision the instant I caught his eye; I realized the uselessness of opposing it, and, sick at heart and horrified, I listened as he said in a voice now calm and soothing as that of a father to his child: "Yes, Beulah, my darling, I have slept too long. Bob has been naughty, but we will make up for lost time. Get your hat and cloak and we'll hurry to the church, or we will be late."

With a laugh of joy she followed him to the closet where hung the little gray turban and the pretty gray jacket. He took them from their peg and gave them to her.

Turn-Down Electric Lamps

Prof. Irving Fisher of Yale University, Secretary of the Anti-Tuberculosis Association in an article dealing with the white scourge of the world, consumption, in the "Outlook" says---

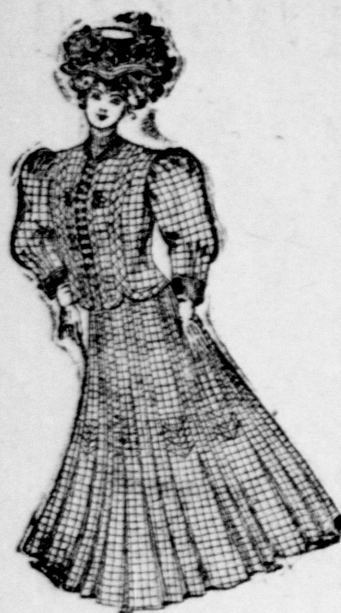

"Before any progress can be made, however, our change of habits must be radical, we must substitute electric lights for all other illuminants: we must learn anew what pure air is, and insist on having it."

Those who have hesitated to use electricity as an all-night light, on account of its cost need do so no longer; the turn-down electric lamp makes it possible to maintain an all-night electric light at a very low cost.

ELKS ASKED TO GIVE UP TEETH

PRESIDENT AND GRAND EXALTED RULER INTERESTED

LETTER READ IN LA CROSSE

Slaughter of Elks in West for Their Teeth Is Deplored by Executive—Will Drop Emblem

Elk teeth worn as charms by members of the B. P. O. E. throughout the United States are to be discarded. The matter will be considered at the meeting of the grand lodge to be held in Philadelphia on July 1 and it is thought that action will be taken.

President Roosevelt has made the request interceding for the residents of the western states, who claim that the elk are fast being exterminated. The people appealed to the government to protect the elk so that they will not become extinct like the buffalo.

The discarding of the elk charms will represent several million dollars at the lowest estimate.

However, there remains little doubt that the teeth will be discarded by members of the order.

At the last meeting of the La Crosse lodge No. 300, Thursday evening, a communication was read from Grand Exalted Ruler Melvin of California, including messages from President Roosevelt and the legislature of Wyoming.

It is said that in the state of Wyoming where the noble animal is plentiful vandals kill hundreds of elk, leaving their carcasses to decay after extracting the charm teeth of which there are but two in each elk. It is said the animals are being mercilessly slaughtered and the Wyoming legislature and the people of the state are up in arms against the abuse. These teeth are valued at from \$5 to \$100 and more each and in pairs perfectly matched have brought as high as \$1,000 per pair.

David Meyer, the well known western salesman for the Gand Brewing company of this city has been collecting teeth and on a recent trip to La Crosse had twenty-four dozen perfectly matched pairs. Many collectors have fortunes invested in teeth.

The recommendation of the grand exalted ruler read before the La Crosse lodge Thursday night recommends the discontinuance of their use but it will be made compulsory when the next grand lodge meets in Philadelphia, provided their abolition is favorably voted, which it very likely will be.

PRIEST IS DEIFIED

Old Dutch Custom of Dancing at Little Chute Broken by First Night Party

APPLETON, Wis., April 20.—Flaunting acts of defiance upon the edict of Father Knechtel of Little Chute, 132 couples assembled at the dance hall and sample room of Joseph Van Camps Wednesday night, and tripped the light fantastic until 3 o'clock Thursday morning. This was the first night dance given in the village of Little Chute, the place being one of the oldest settlements in the Fox river valley.

The agitation for night dances came into prominence among the young Hollanders of the village a few weeks ago. The matter was referred to the Rev. Father Knechtel, the young people desiring to secure his permission before deviating from the custom of their forefathers, who for fifty years have danced only in the daytime. Immediately the divine objected to this procedure, and issued an ultimatum to the effect that any of his parishioners caught dancing after darkness will be summarily expelled from the church, and also declaring that if the movement became general among his people he would resign from his position. The young people took exception to this peremptory order. Several meetings ensued, and it was finally decided among many to transgress the order of the priest.

BURIED UNDER COAL

Laborer at Escanaba Is Rescued Alive After Twenty-four Hours

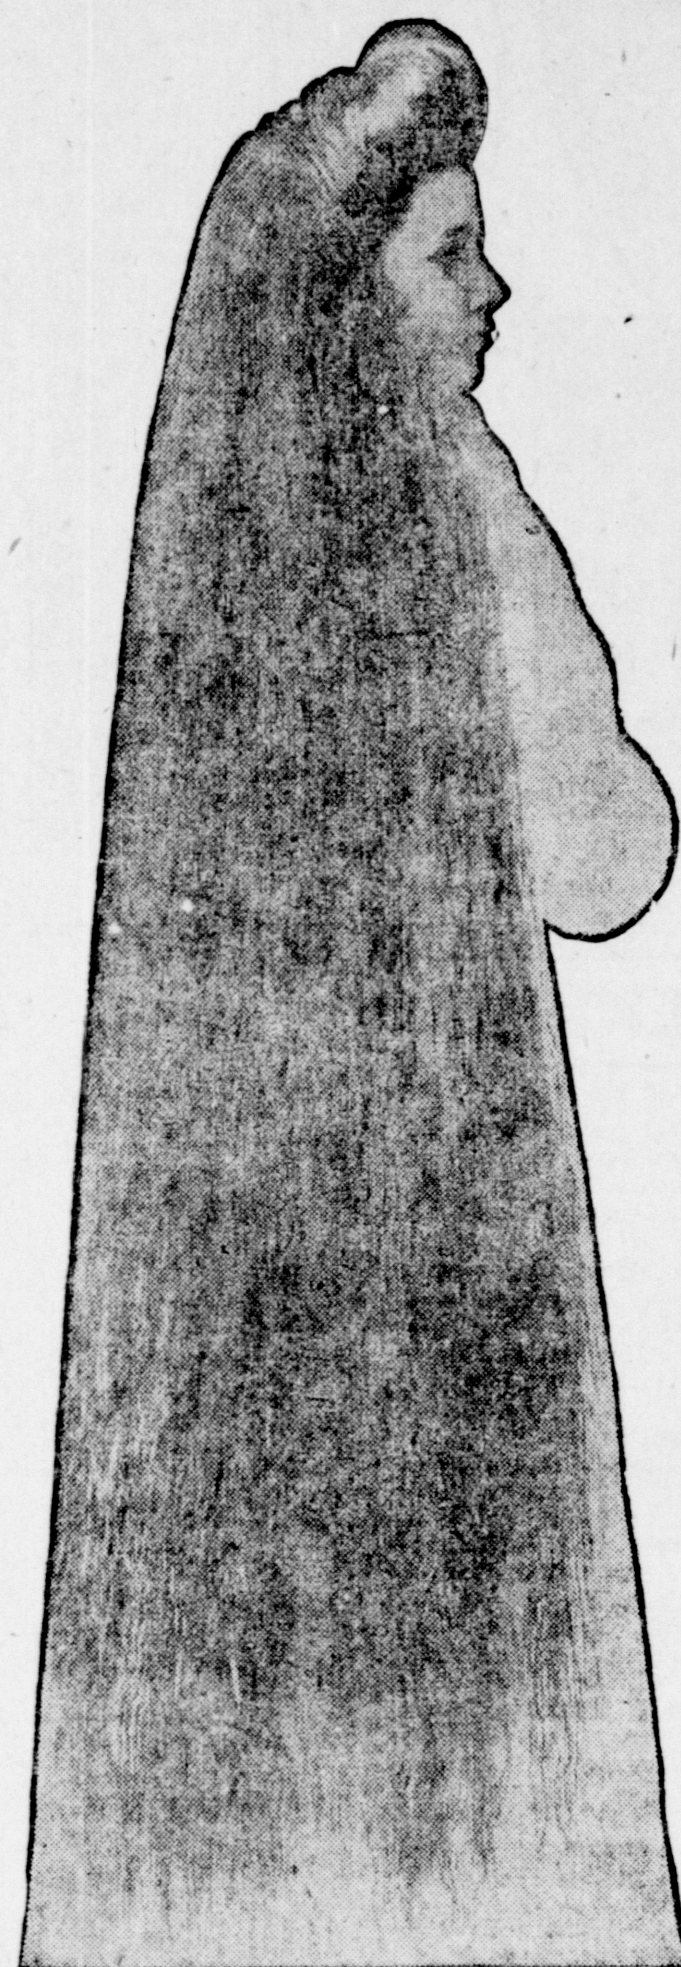

ESCANABA, Mich., April 20.—Caught in a mass of coal, Frank Erickson, a laborer, was carried head foremost through a chute at the Reis Coal company's dock yesterday afternoon, and after being entombed under twenty-five tons of coal for an entire day was rescued at 3 o'clock in the afternoon alive.

He was bruised from head to foot and sustained internal injuries. There is slight hope for his recovery.

The disappearance of Erickson from the dock was not discovered until last night and crews dragged the bay, thinking he had drowned. This afternoon when a car of coal was being dumped a feeble shout was heard. The car was quickly emptied and Erickson was found alive and conscious. He said he had heard men passing the car through the night and had shouted repeatedly, but could not make himself heard.

NEWBRO'S HERPICIDE

Is the original remedy that "kills the dandruff germ"

EDNA D. ALLEN

WITHOUT dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, this germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

A WOMAN TO BE PRETTY

A woman to be pretty must have pretty hair. Beautiful locks have a subtle charm, for the poet says, "fair tresses man's imperial race ensnare." The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lusterless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide. Overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye. Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp, and also for its excellence as a regular hair dressing. It is delightfully fragrant and refreshing.

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and leaves the hair soft and silky."

OBSERVE ARBOR DAY APRIL 26

PRESIDENT ISSUES MESSAGE TO THE CHILDREN.

ADVISES PLANTING OF TREES

Custom Inaugurated by J. Stirling Morton Will Be Observed in La Crosse Schools.

Preparations are being made in the schools for the proper observance of April 26th, Arbor day, which is almost here. The following message has been addressed to the school children of the United States and is being read to all of the pupils in the La Crosse schools:

"To the School Children of the United States:
"Arbor day (which means simply 'tree day') is now observed in every state in our union—and mainly in the schools. At various times from January to December, but chiefly in this month of April, you give a day or part of a day to special exercises and perhaps to actual tree planting, in recognition of the importance of trees to us as a nation, and of what they yield in adornment, comfort and useful products to the communities in which you live.

"It is well that you should celebrate your arbor day thoughtfully, for within your lifetime the nation's need of trees will become serious. We of an older generation can get along with what we have, though with growing hardship; but in your full manhood and womanhood you will want what nature once so bountifully supplied and man so thoughtlessly destroyed, and because of that, want you will reproach us, not for what we have used, but for what we have wasted.

"For the nation as for the man or woman and the boy or girl, the road to success is the right use of what we have and the improvement of present opportunity. If you neglect to prepare yourselves now for the duties and responsibilities which will fall upon you later, if you do not learn the things which you will need to know when your school days are over, you will suffer the consequences. So any nation which in its youth lives only for the day, reaps without sowing, and consumes without husbanding, must expect the penalty of the prodigal, whose labor could with difficulty find him the bare means of life.

"A people without children would face a hopeless future, a country without trees is almost as hopeless, for forests which are so used that they cannot renew themselves will soon vanish and with them all their benefits.

A true forest is not merely a storehouse full of wood, but, as it were, a factory of wood, and at the same time a reservoir of water. When you help to preserve our forests or to plant new ones you are acting the part of food citizens. The value of forestry deserves, therefore, to be taught in the schools, which aim to make good citizens of you. If your arbor day exercises help you to realize what benefits each one of you receives from the forests, and how by your assistance these benefits may continue, they will serve as a good end.

EUTERPEAN SOCIETY MEETS

Goethe, Gounod and Van Dyck Among the Characters Studied at Last Night's Meeting

One of the most interesting programs of the season was rendered at the regular meeting of the Euterpean club last evening. The three characters studied last evening were Goethe, Gounod, and Van Dyck. Musical selections from Gounod made the evening's program especially interesting.

An excellent illustration of character of Gounod was given when a song was rendered by a quartet composed of Mr. J. R. Kerr, Mrs. B. F. Keeler, Miss Van Wormer, and Mr. Taggart.

The members were delighted to hear Miss Johnson who sang, "When to Thy Vision" from "Faust" and by request for an encore, "The Wind in the Chimney."

Selections from Goethe were read by Professor Otto Wieland. The characterization of Van Dyck by Miss MacNair was one of the most interesting features of the program.

Charles Schweizer presided at the meeting in the place of the Rev. Henry Faville. The last meeting will be held in two weeks. After this the club will adjourn until the second Thursday in October.

BUSINESS EXPANDS THE TRIBUNE WAY

EDWARDS TO BUILD NEW STORE
SOUTH OF TRIBUNE

WILL PROBABLY BUILD MORE

Says This Is the Natural Business
Outlet and That This Section
Will Grow Rapidly

President B. E. Edwards of the La Crosse City Railway company has confidence that a building boom on South Fifth street will follow the location of The Tribune in its new quarters, and as a substantial evidence of his confidence that The Tribune has established itself in what will soon be the heart of a new commercial center of the city, he is building a modern three-story brick building on South Fifth street, just south of the new Tribune building.

The new building is to have forty feet frontage and will be eighty feet deep. The lower part of the building will be used for store space while the upper floors will be used as flats.

The cost of the new building will be about \$10,000.

In speaking of the new building and the reasons for building in this location Mr. Edwards said:

"South Fifth street is the natural course for the city to take, as it grows. It is cut off below by the market square and on upper Main street by the churches. On south Fifth street there is a straight stretch that is not obstructed in any way. The city is bound to move this way."

"If I succeed in renting this building I will tear out the house between The Tribune and the new one, and erect another building."

THE KNOW HOW

To Feed Children and Get Good Results

There are more nervous persons made so by undigested food lying in the stomach than the average individual would suppose.

If food remains undigested in the stomach, it begins to ferment, set up gas and a large portion is thus converted into poison.

That's why imperfectly digested food may and often does cause irritation of the nerves and stupor of the mind—brain and nerves are really poisoned.

"My daughter had complained for some time of a distressed feeling in the stomach, after eating, which set me thinking her diet was not right," writes an anxious and intelligent mother.

"She had been fond of cereals, but had never tried Grape-Nuts. From reading the accounts of this predigested food, it seemed reasonable to try Grape-Nuts for her case."

"The results were really wonderful. The little brain that seemed at times unable to do its work, took up new life and vigor. Every morning, now, before going to school, she eats the crisp little morsels and is now completely and entirely well, she seems to have a new lease on life—no more distress in the stomach, no headache, but sound and well every day."

C. W. Cowles Finds Current Here
Too Strong—River is Falling
Along the Line

Owing to the swiftness of the current in the river at present the C. W. Cowles was obliged to break her raft above the railroad bridge today, as it is dangerous to take a large raft through the bridges when the current is so swift.

The river continues to fall slowly, and the prediction is for a continued fall. The stage of water here today is 9 feet, a fall of three-tenths of a foot.

The weather tomorrow will be fair and warmer.

The board of education announces it has the power to award the contract to anyone it chooses, and the bids do not necessarily have to be asked. Contractor Arenz is doing the work.

Good Results In Lung Trouble

MRS. VICTOR A. BEAUCAIRE.

Mrs. Victor A. Beaucaire, a prominent club woman of Chicago, Ill., contracted a severe cold from being exposed in bad weather which resulted in serious lung trouble.

Mrs. Beaucaire, after taking several doses of Duffy's Pure Malt Whiskey, says it has helped her wonderfully, brought the color to her cheeks, and that she would not be without it.

She pays high tribute to the world's greatest tonic stimulant in the following letter:

"As I am a member of the Hull House Women's Club, I was called out many times when the weather was very bad and so caught a very hard cough, and doctors claimed that my lungs were affected; in fact the left lung was almost gone, but since I have taken your valuable DUFFY'S PURE MALT WHISKEY, I feel better and would not do without it. I have not been taking it very long, but I am sure of good results; I have good color in my face and feel that I can work with a great deal more ambition. I cannot praise it too much. I have recommended it to several of my friends and they, too, are thankful for the benefit they have already derived from it." Mrs. Victor A. Beaucaire, 255 Ogden Ave., Chicago, Ill. May 4, '06.

TWO SISTERS HAVE ECZEMA OF HEAD

Two Illinois Girls Suffer from Scalp Trouble—Another Sister Needs a Tonic—Friend Suggests Cuticura—They Use It and Now Give.

MUCH PRAISE TO ALL CUTICURA REMEDIES

"I must give much praise to all the Cuticura Remedies. I used but one cake of Cuticura Soap and one box of Cuticura Ointment, as that was all that was required to cure my disease. I was very much troubled with eczema of the head, and a friend of mine told me to use the Cuticura Remedies, which I did, and am glad to say that they cured my eczema entirely. Since then we have always kept the soap on hand at all times. My sister was also cured of eczema of the head by using the Cuticura Remedies. Another sister has used Cuticura Resolvent and Pills and thinks they are a splendid tonic. I cannot say exactly how long I suffered, but I think about six months. Miss Edith Hammer, R. F. D. No. 6, Morrison, Ill., Oct. 3, 1906."

DECISION IS OF LOCAL INTEREST

NEBRASKA DECIDES CASE IN LUMBERMEN'S FAVOR.

IT HAS LEGAL EXISTENCE

Interest Here Depend by Attempts in Minnesota to Investigate Northwest Association.

La Crosse Lumbermen, mill-owners and general manufacturers will be interested with other northern lumbermen, in findings just filed by a referee in actions in the supreme court of Nebraska, in which it is declared that the Nebraska retail lumber dealers association is not an unlawful organization and that its operation had not been in violation of the laws of that state.

The findings of the Nebraska court are of special interest to Wisconsin lumbermen, and other northern lumbermen because of their recent efforts of the legislature of Minnesota to institute an investigation of the Northwestern Lumbermen's association, which is an organization almost exactly similar to the Nebraska concern, and includes many Wisconsin and Minnesota firms.

The articles of association of both of the lumber organizations were drawn by Charles J. Traxler, and they are almost identical, the only difference being in detail that would not be essential in a suit such as the one just heard in Nebraska.

The action in the supreme court of Nebraska was begun on the part of the state more than a year ago when Morris Brown was attorney general, and its purpose was to restrain the Nebraska Retail Lumber Dealers' association from operation on the ground that its members, 370 in number, had conspired to monopolize the retail lumber trade of the state for the purpose of restraining trade, regulating prices, pooling profits and of restraining internal trade among its members by dividing the territory of the state among them.

After the retirement of Morris Brown from the office of attorney general the case was prosecuted by his successor, W. T. Thompson, who had associated with him H. M. Sinclair. The lumbermen's association was represented by John S. Kirkpatrick of Omaha and Charles J. Traxler of Minneapolis. The testimony was taken before A. M. Post, former chief justice of the supreme court of Nebraska, who was appointed by the court as referee, and Judge Post has just filed his findings.

As conclusions of law, the court finds:

"The purpose of the Nebraska Lumber Dealers' association as declared in its articles of association, are not unlawful.

"The declared purpose of said association being consistent with the provisions of the anti-trust laws of Nebraska, the defendants are not, from the mere fact that they are members of said association, chargeable with acts, in violation of such laws, done without their knowledge or consent by fellow members thereof.

"The facts as proved and found do not, except as herein otherwise stated, show any agreement, combination or conspiracy in restraint of trade as defined by the statutes of Nebraska.

"The facts as proved and found do not, except as herein otherwise stated, show any agreement, combination or conspiracy to monopolize any part of the trade and commerce of the state of Nebraska.

"The defendants, except as herein otherwise stated, were not at the date of the commencement of this action, guilty of monopolizing any part of the trade and commerce of the state of Nebraska.

"The unlawful combination between the defendants, the Barnett Lumber company and the W. C. Bullard Lumber company, mentioned in the accompanying findings of fact, is presumed to have continued until the date of the commencement of this action, and the state is entitled as against said defendants, to judgment as prayed in its petition."

The Women's Missionary society held its spring meeting in the Congregational church of Waukesha, at the same time.

The Rev. C. H. Williamson made a report of the work of the board of publication and Sunday school work, showing increased activity.

The Rev. J. V. R. Hartness, the Sunday school missionary of Milwaukee Presbytery, told of his work in Dodge county and in the city of Milwaukee.

The morning session on Wednesday was devoted to reports of the committees on home mission, church erection, ministerial relief and education. In the afternoon, the Presbytery met with the students of Carroll college and held a devotional service. Addresses were made by the Rev. G. M. Colville of Racine, and President W. O. Carler.

A resolution was unanimously adopted asking Dr. Carrier to decline the overtures of the Chicago committee, a home mission, and to remain with the college. The Presbytery agreed to co-operate with President Carrier in the support of the college. Dr. G. M. Colville and Dr. J. W. Sanderson made addresses on the foreign missionary work, and in the evening there was a popular meeting in the interest of home missions with a stirring address by Rev. Samuel N. Wilson, D. D., of Wausau.

JUDGE SHOWED HIM

ANGERED AT WITNESS THE MAGISTRATE USES FORCE.

GREAT FALLS, Mont., April 20.—Justice of the Peace John Q. Dempsey of Belt has been arrested on a charge of assaulting a witness whose testimony in a case which was being heard by the justice did not suit that official. The complainant against Justice Dempsey is Joe Buckingham, a rancher.

Buckingham had been arrested on a charge of cruelty to his stock. He took the stand to testify in his own behalf, when the court accused him of lying about the case, and also took exception to the manner in which the witness answered questions. "Inally losing his patience, his honor, shouted:

"That's no way to answer my questions. I'll teach you to get gay with this court," and suiting the action of the word, his honor landed a right hook on the recalcitrant witness' jaw which knocked him out of the witness box. The justice then proceeded to assist the fallen witness out of the court room by a series of heavy kicks with his boots. He then had him arrested for contempt of court, but after Buckingham had been incarcerated a short time, the justice's anger cooled and he ordered the man released.

Buckingham swore out a warrant for the arrest of the justice on a charge of assault and battery.

MARRIED A GERMAN

SO ITALIANS NEAR RACINE THREATEN A RIOT AT WEDDING

RACINE, Wis., April 20.—Excitement is at fever heat in the village of Ives, seven miles north of this city. Several hundred Italians, engaged in working in the stone quarries, are celebrating today. It is all on account of Mrs. Mary Sasso, widow of Mike Sasso, known for years as the king of the Italians, marrying Gottlieb Smith, a young German farmer, son of William Smith, a democratic leader of Caledonia. Several of the Italians wanted to wed Mrs. Sasso themselves, but she turned a deaf ear to the sons of Italy and accepted the sturdy German. Hints have been given out that the German will be killed in a year, but when the bride of a few hours was called upon asked her version of the danger to her husband, she spoke lightly of it and did not appear in the least alarmed, claiming she had a right to marry whom she pleased.

It is planned to have all of the singing societies and other organizations in the city participate, and to this end a committee was appointed consisting of Hugo Schick, president of the Duetscher Verein and John Malin, president of the Frohsinn Singing society. This committee will take up the matter with other societies.

The music committee, to have charge of the program of the saengerfest, was appointed by President William Doerflinger last evening as follows: Joseph Risse, chairman, Oscar Frey, A. P. Thomas, Robert Isler, M. O. Forsyth, Charles Weiss, Miss Barbara Russel and J. L. Uttermoehl.

William Doerflinger was made chairman of the committee on badges and authorized to place an order for 1,000 handsome souvenir pins to advertise the fest.

The Saengerfest Monthly, a publication to be edited by J. L. Uttermoehl, will make its first appearance in October, and will come out every week thereafter for ten consecutive weeks.

An invitation was read from Secretary George H. J. Hiseh of Milwaukee, inviting the local singers to attend the "Volksleider Evening" at Milwaukee, April 27.

TOWN HAS TWO MAYORS.
REYNOLDS, N. D., April 20.—This town has two mayors—D. J. Hennessy and Dr. Halliday. At the recent election they received an equal number of votes and Hennessy was awarded the office on the flip of a coin.

Halliday was the hold-over mayor and refused to surrender the office to Hennessy, who, he claimed, was ineligible in that he was not a legal resident of the city. Meanwhile Hennessy has opened an office and is taking charge of the city government, or so much of it as refuses to submit to Mayor Halliday. A special council meeting has been called to act upon the matter.

ADVICE TO RHEUMATICS

Noted Physician Tells How to Prevent and Cure Rheumatism, Kidney and Bladder Troubles.

From Chicago Tribune. (By George Edmund Flood, M. D.) We are in danger of becoming a nation of invalids because of the rapid increase in the number of persons afflicted with Rheumatism, Kidney, Bladder or Urinary trouble in some form. "How to prevent and cure these afflictions, which have become almost epidemic in America," is the question I have been asked and will answer briefly.

It is an established fact that Rheumatism is due to Kidney Trouble. With the kidneys properly performing their functions there would be no Rheumatism. Therefore, let us get at the root of the trouble and remove it.

In the first place, Americans as a rule eat too much—if not too much, too rapidly. Many of us not only eat too much and too rapidly, but we eat too great a variety of foods, which are not only hard to digest but almost worthless so far as nutrition is concerned. Then we drink too much of every liquid except water, and too little of good, pure water. What happens? The kidneys become clogged up despite their desperate efforts to carry out of the system the vast amount of useless waste which we take in. The result: This waste and poisonous material remains in the system, is carried all through it by the blood, and makes the most fertile soil in which the germs of Rheumatism are deposited and mature.

The situation is a serious one, yet the remedy is simple. If you would avoid Rheumatism and Kidney and Bladder Troubles be moderate in the consumption of heavy, rich foods, substitute as far as possible soups, broths, fresh milk and drink water—lots of water—and often. Take plenty of time to eat, and don't eat after you have had enough, even if it does taste good. If your work is confining take a moderate amount of exercise each day in the open air.

Of course, neither diet, water, rest, nor exercise will cure these afflictions. I advise them as preventives only. For the benefit of the readers of this article who are now afflicted with Rheumatism, Kidney, Bladder or Urinary trouble, and desire to be cured quickly, I give below, complete in every detail, the famous prescription which has made me so successful in the treatment of these diseases. It is the most certain cure for these diseases that I have ever used. It is pleasant to take, it is not expensive, it can be filled by any druggist, and I believe it is the greatest prescription for Rheumatism, Kidney and Bladder Trouble ever written. It is also a valuable spring tonic and blood purifier. If you are a sufferer, save this, take it to your druggist and have it filled, or get the ingredients and mix them at home.

Fluid Extract Cascara Aromatic, ½ ounce; Concentrated Barkola Compound, 1 ounce; Fluid Extract Prickly Ash Bark, ½ drachm; Aromatic Elixir, 4 ounces.

Adult dose, take one teaspoonful after meals and at bedtime; children one-fourth to one-half teaspoonful after meals.

After you are cured follow the advice I have given you in regard to diet, exercise and water, and you will not need the services of a physician again for these ailments.

AGREE ON FISHING ABANDON EFFORT TO GET ISLAND

MINNESOTA LEGISLATURE AGREES TO HAVE LA CROSSE AS A SUBJECT

ST. PAUL, April 20.—The house passed the senate file of the bill drawn by the joint committee which visited Wisconsin to formulate a comprehensive law relating to the fishing in the waters between the two states. The same bill is being passed by the Wisconsin legislature, so there will be no conflict regarding the fishing in the St. Croix and Mississippi rivers. The bill was introduced in both houses and the senate bill was passed first and was substituted for the house bill at the bottom of the calendar.

Near the close of the session Alvin Rowe of St. Paul, chairman of the game and fish committee, moved that the house take a recess until 8 o'clock. There were cries of opposition. H. G. Hicks of Minneapolis said the evening sessions are a farce. A few members came up and nothing was accomplished. "Members are not present at all," he said. "These evening sessions are a disgrace. Get here at 9 o'clock in the morning and work until supper time and you will do much better."

"Well I have a bill on the calendar," said Mr. Rowe, "and I want to get to it. If you will pass it now I will withdraw the motion." The bill was taken up and passed and then the house adjourned for the day.

PETTIBONE PARK COMMISSION NOT ASKING IT.

HOUSTON COUNTY OPPOSED

Though Cession of Strip Would Give City Police Jurisdiction, Things are Well as Are.

No effort will be made to have the Pettibone park ceded to the state of Wisconsin at the present session of the Minnesota legislature, according to Geo. M. Burton, treasurer of the Pettibone park commission. There was some talk to the effect that the matter was again to be taken up before the general assembly, but it is positively denied by Mr. Burton.

Four years ago the question came up for consideration before the Minnesota legislature, and passed the house. However, the people of Houston county, just across the river, objected so strenuously that it fell through. They claimed they owed La Crosse nothing and did not want the park put under Wisconsin jurisdiction. The bone of contention was the matter of a free bridge between this city and Minnesota. Since the matter fell through, it has never been revived although many would like to see it taken up again.

The island was formerly owned by A. W. Pettibone, now president of the park commission. He donated the strip to the city of La Crosse for park purposes. La Crosse, however, has no police powers on the island as it is in Minnesota territory. If the island was ceded to Wisconsin it would be afforded this protection.

LATIMORE, N. D., BARBER GETS TWO WARRANTS CHARGING ASSAULT

LATIMORE, N. D., April 20.—Considerable excitement was aroused here over a Catholic priest named J. F. Simpson being charged with assault and battery by J. W. Murphy. It is claimed that the priest assaulted Murphy in the latter's barber shop Monday, and again on the street on Tuesday. Two warrants have been sworn out. The case has been postponed by Justice Holton until next Tuesday.

SALOON MEN FOXY

DARLINGTON LIQUOR DEALERS AGREE TO HAVE A TIGHT TOWN

DARLINGTON, Wis., April 20.—After many years of open town, Darlington is to have the lid put on. Strangers of all, the saloon men are putting this same lid on themselves. At a meeting of the saloon men an agreement was signed whereby they all agree to obey the state and city laws governing their business, closing at the prescribed time in the evening and keeping closed all day Sunday.

Just what caused this spasm of virtue is not known, but perhaps the fact that the recently elected council announced their intention of enforcing the law had something to do with it. The saloon men, it is reported, also agreed to raise the price of beer.

The outcome of the closing agreement will be watched with some considerable interest, particularly so as one clause of the agreement calls for the observance of law by other business men.

RACINE MIDNIGHT CLOSING. RACINE, Wis., April 20.—The 135 saloon men in this city were notified yesterday that hereafter they must close their places of business at 12 o'clock at night, as the city ordinance provides, and that any violation of the law will be followed with prosecutions. Reports have come in that many saloons violated the ordinance for months.

BOY'S SHOT IS FATAL

Rifle Bullet Hit and Kills Farmer in South Dakota.

SIoux FALLS, S. D., April 19.—Andrew Sundt, a farmer whose home was about three miles from Thompson's Grove, near Baltic, north of Sioux Falls, was accidentally shot and almost instantly killed by Willie Thompson, the 16-year-old grandson of John Thompson, a well known pioneer. The boy, with a companion, was shooting at a mark with a 22-caliber rifle, when unknowingly Sundt got within range, the bullet entering the back. The pellet of lead passed through his heavy clothing and body. Sundt walked about sixty feet to the Thompson home, saying "I'm shot." Mrs. Thompson told him he had better sit down. He replied, "I feel more like lying down," and with these words sank to the floor, dying about four minutes after the accident.

WHOLE CLASS SUSPENDED

SPRINGFIELD, Mo., April 20.—The entire junior class of Drury college, Congregation, numbering 34, was suspended because the members refused to apologize for resolutions drawn up last Monday and directed against the faculty. The freshmen class of eighty-seven students has voted to stand by the juniors.

The trouble started with the theft from President Kirby's home of a quantity of ice cream intended for a senior reception. Wyatt Brandon of Rogersville, Ark., a junior charged with being the leader of the raiders, refused to divulge the names of the others and was ordered home. Then the class intervened.

"JUDGE" PERKINS IS FREED

Colored Justice of the Peace Worsted District Attorney in Trial by Rare Eloquence.

Judge J. C. Perkins, colored, worsted the district attorney yesterday in a case in county court in which Perkins was himself both defendant and counsel.

Perkins was arrested on the instance of Mrs. Martell, from whom he had leased a portion of land on French Island. He was charged with the malicious destruction of a fence on this property. Mrs. Martell claimed that Perkins had torn down the fence, in order to "get back" at her for an old grievance, but had later put it up again, fearing that Mrs. Martell would cause trouble. The case was brought because the plaintiff claimed that the fence was not as good as before torn down by the defendant.

Perkins, who has a smattering of legal knowledge, waxed eloquent during the trial and the spectators were entertained by a speech abounding in big words and legal phrases. The judge was so visibly affected by the speech of the defendant that he dismissed the case.

PARENTS MARRIED

AFTER SEVEN YEARS OF LIFE THINKING LICENSE DID IT; FINISH JOB

MINNEAPOLIS, Minn., May 20.—Alexander Donald and Sarah Jane Alexander Donald, colored, were married in Minneapolis last evening, after seven years of what they supposed was lawful wedlock had passed over their heads. The Donalds secured a marriage license in 1900 from the clerk of courts. Both parties appeared at the clerk's office and they went home and pinned the license on the wall and considered themselves married. When seeking a frame for the license at the clerk's office yesterday Alexander Donald was surprised to be told he was not legally married. When the differences between marriage licenses and marriage certificates were explained to him he hastened to find a minister to perform the ceremony in the presence of his two "finest children you ever saw," because he felt that a common law marriage was not good enough for his wife, she being "pretty particular," as he put it.

DIES IN A HOVEL

RECLUSE THREE SCORE AND TEN YEARS DIES ALONE.

MENOMONIE, Mich., April 20.—In a cold, cheerless hovel at the foot of Cushman street in Shantytown, just across the river from Menominee, on the Marquette side, with but one pane of glass in the shattered windows and only a scanty bit of fuel inside, the dead body of John Larson, seventy years old, was found by neighbors shortly before 11 o'clock this morning. The body was in a rocker in his bedroom, where for 24 years he had led the life of a recluse.

The man had been ailing for some time. Monday morning Dr. Lid went to the house with a prescription, and that was the last time that the man was seen alive.

The dead man had no relatives and the burial will be in charge of the county.

SERMON OF LITTLE USE.

WASHINGTON, D. C., April 20.—That 75 per cent of present day sermons could be dispensed with to the betterment of church attendance was the opinion expressed today by Mr. Butler of Pennsylvania, one of the delegates to the national conference of church clubs, in annual session here.

"The church might stagger under the blow," he remarked, "but its recovery would be rapid and lasting." The utterance was warmly applauded. It was delivered during a discussion of the question: "Why Men Do Not Go to Church."

ALLOWED LYNCHING; ARRESTED

MARKSVILLE, La., April 20.—Charged with manslaughter for the alleged carelessness in allowing the negro, Charley Strauss, to be lynched by Deputy Sheriffs J. E. Keegan and J. J. Salmon were brought here under arrest and placed under \$700 bonds each. Strauss was hanged to a tree near Eola, La., by masked men who met the deputies as the latter were scouting the negro to jail.

MARSHAL EXONERATED

CARUTHERSVILLE, Mo., April 20.—City Marshal Suddath was this morning exonerated for the killing of the negro, Robert McCall, advanced agent for the McCall carnival. Suddath had trouble when McCall was here last fall.

WESTON, Ill., April 20.—Robbers early yesterday blew the safe of the Weston Banking company and escaped with \$5,000. A posse is pursuing.

FARMERS OF THIS VICINITY ARE RUSHING SPRING WORK

LATE SEASON DELAYED THEM

But Warmer Weather Is Now Expected and the Work of Getting in Shape Is Begun

The farmers of this vicinity are now attending to their spring seeding work and in spite of the lateness of the season anticipate getting things into shape within another week.

There is a large amount of tobacco being planted in western Wisconsin this spring and the farmers expect to realize a big profit from the culture of the weed. The principal tobacco country last season was Vernon county, but La Crosse promises to eclipse Vernon this season.

No changes were noted in the local market prices today:

BULL STATEMENT REFLECTED IN GENERAL ACTIVITY

DOMESTIC MARKETS STIFFEN

Bad Crop Reports Have Tendency to Brace Up the Bull Traders

CHICAGO, Ill., April 20.—The late statement of the hitherto bearish Modern Miller jarred the solgity of the Liverpool traders and there was anxiety to cover by the shorts in that market. The cables closed stronger. The demand for spot stuff on the continent was a factor in the Liverpool strength also. The news southwest was the same, dry and cool weather, and the curb was up. The opening was a fraction higher. A momentary selling of July put prices off a bit at the start but shorts and commission houses put up a pretty strong demand and there was a flurry now and then when the offerings were scarce. Large lots were dealt in occasionally, but the bulls and bears of large caliber were standing at present waiting for rain or more sunshine.

Crop news was much the same in tenor. There is a steady stream of damage news from all over the winter wheat belt. The weather was cool in Kansas and there was no rain. Wheat that looked good a week or so ago is now showing the effects of the rigorous weather.

SEEDING TIME NOW AT HAND

FARMERS OF THIS VICINITY ARE RUSHING SPRING WORK

LATE SEASON DELAYED THEM

But Warmer Weather Is Now Expected and the Work of Getting in Shape Is Begun

The farmers of this vicinity are now attending to their spring seeding work and in spite of the lateness of the season anticipate getting things into shape within another week.

There is a large amount of tobacco being planted in western Wisconsin this spring and the farmers expect to realize a big profit from the culture of the weed. The principal tobacco country last season was Vernon county, but La Crosse promises to eclipse Vernon this season.

No changes were noted in the local market prices today.

DOERFLINGER'S

WAKE UP! A GENUINE BARGAIN CALL
GREAT 1 DAY UP AND DOWN SALE

If you want bigger, better and more bargains than you ever had offered you in one single day attend this Great one Day Up and Down Sale which begins at 8 o'clock and continues until 6 o'clock in the evening. Carefully note the change of prices every hour. Some go up, but most of them go down. Every item at its highest price is a bargain and at its lowest price is far below the actual cost of manufacture. We can't promise how long the lots will last. Some may last thru the entire day and some may last only a few hours. Every item should be carefully studied and note the hourly change. Don't depend upon getting all of these bargains at their lowest price, for chances are that most of the lots will be cleaned up or the assortment broken long before the last drops in prices. To illustrate the plan we will take for example, the first item. Grey enameled Preserve Kettles regularly selling at 50c, from 8 to 9 o'clock we offer your choice at 39c, every hour the price drops 3c, but the quantity lessens. At 5 o'clock the price drops 15c. It may happen that but few of them will be left at this time. Perhaps they will be cleaned up long before this time. Remember there are many items where the prices raise each hour, but the assortment in each becomes broader as the price jumps up. Then again there are some items where the prices go up and down each hour. At all events it would be well to come early, watch the opportunity and buy when your judgment dictates. Carefully read every item and when you come bring this advertisement with you to avoid all mistakes.

The earlier you come the wider your choice. The longer you stay the bigger the bargains, but the fewer there'll be. It's like getting gold dollars at a discount. You will recognize the fact at any hour of the day you are here. Be on hand promptly Monday when the doors swing open at 8 o'clock. Wake up! It's a genuine bargain call.

**FOR ONE DAY ONLY
MONDAY, APRIL 22**

Don't let anything interfere with your coming. We are giving you early notice of this great bargain feast so that you will have no other engagement to interfere with your coming on time. Come in the morning, later if you must, but not too late. Remember we can't promise these lots to last, but we are of the belief that there will be enough for all comers.

FIVE THOUSAND TRIBUNE GUESTS

NEW TRIBUNE OFFICE IS A BRILLIANT SCENE

GREAT PRESS DRAWING CARD

Crowd, Watch, Three-decker, and Carry Away Linotype Slugs Bearing Names and Addresses

An epoch in the newspaper history of La Crosse, was marked by the big reception tendered by The Tribune company last evening to the people of La Crosse, when The New Tribune Building, with its splendid equipment and facilities was thrown open for inspection.

The success which attended the reception was only a testimonial of the esteem in which The Tribune is held by the people of La Crosse.

Shortly after 7 o'clock the crowds began to arrive and from that time until nearly midnight the building was crowded with guests. The office, which had been changed, forces were kept on duty through the various departments, beginning with the business offices to the mechanical departments. It was for more than three solid hours, three linotype operators, were busy engaged demonstrating the operation of the Mercantile Linotype Machine, for instance, which the Tribune is now using.

As a result of the success which attended the reception, as evidenced by the fact that the Tribune is now using the Mercantile Linotype Machine, it is believed that the Tribune is now in a position to compete with the best of them.

Five La Crosse sharpshooters, members of the La Crosse Sharpshooters' association, will take part tomorrow in a telegraphic shoot with a similar team in Wausau. The contest is to be for a prize and good scores are expected. The members of the team who will represent La Crosse are Sol Hardick, John Mohr, J. K. Knepp, Dr. E. A. Gatterdam and Tom Baid.

La Crosse will shoot on the Sharpshooters' range at West La Crosse, while the Wausau team will shoot at home. As fast as the scores are recorded on the board they will be wired directly to Wausau and that team will do the same. In that way both teams will know what they are shooting against.

The sharpshooters expect to have a good time and a contest every Sunday until the summer when La Crosse expects to send a team of ten crack shots.

TALKS WITH THE PRESIDENT

Says in an Interview Today That Tariff Tinkering Caused the 1903 Panic

WASHINGTON, D. C., April 20.—Ex-Secretary Shaw, now president of the Carnegie Trust company of New York, saw President Roosevelt today and talked over the financial situation and politics. On leaving the White House, Mr. Shaw was asked regarding the financial situation and business outlook. He said there would be no panic, though there were signs of some cessation in business.

Mr. Shaw considers conditions much different now from those preceding the 1893 panic. Then, President Cleveland was playing politics and making the country believe there were things wrong with the monetary system and that the tariff had to be revised.

Mr. Shaw declared that had President Cleveland prevented congress from overhauling the tariff in 1893, there would have been no panic.

The girl lay as if paralyzed on the tracks unable to move, when the car was brought to a stop, with the feeder touching her clothing.

LA CROSSE MERCHANTS MEET

Monday Morning at Doerflinger Store to Complete Arrangements for Progressive Step.

John S. Creswell, known to all commercial organizations in the United States as an authority on matters pertaining to the rebate system, arrived in La Crosse at noon from St. Paul.

Mr. Creswell's visit to La Crosse is the result of correspondence with prominent local business men, covering a period of several months. Many of our merchants have observed the tremendous trade drawing influence of the rebate system during visits to other live cities, and have long believed its introduction in La Crosse would add an immense volume of business which at present is a stranger to this city.

Experts report that in non-rebate cities the total trade enjoyed by the larger city does not under the favorable conditions exceed 7 per cent of the total within twenty-five miles. In those cities where the rebate system operates in force from 30 to 35 per cent of the total trade within twenty-five miles is centralized in the rebate town. The rebate system operates in one hundred and sixteen American cities. It has attained its highest development and greatest efficiency in Indianapolis, Peoria, Terre Haute, Buffalo, St. Joseph, Springfield, Ft. Wayne, Oklahoma City and in practically all American cities distinguished for thrift, progressiveness and high order of commercial intelligence. Mr. Creswell stated to a Tribune reporter that he had assurances of sufficient co-operation to assure the organization of the rebate plan in La Crosse and that at the end of sixty days, every house in the city which caters to out-of-town trade, would voluntarily come into the association.

Mr. Creswell will proceed at once to organize the rebate system in the city. The La Crosse Rebate association will be a purely local organization, without present affiliation with any other body. Mr. Creswell's only connection with the association will be that of an expert in organizing and arranging the various details. After his work is completed and approved by the new association, he will be paid and his connection with the association will end.

When the business community has for years been doing quietly and in regularity will hereafter be done publicly and systematically, says a man who favors the plan. That is, the paying of the car fare of non-resident shoppers. Under the plan as followed in the past—or rather lack of plan—the business element has been paying large amounts in the aggregate without any of the advantages that come from co-operation.

For this and other trade reasons it has been determined to organize the rebate system as practiced in practically all live American cities. By this plan becomes publicly known that everybody who trades in La Crosse will be entitled to a refund of the amount he is out for car fare in visiting this city to spend his money. Experience has demonstrated that, with a few exceptional cases omitted, 5 per cent will cover all fares in individual cases and that the average is slightly in excess of 2 per cent.

The rebate system in its practical operation is simplicity itself as far as the public is concerned. The only complexity is in the matter of percentages as affecting the various members of the rebate system and this is handled exclusively by a bank. This is the only man who pays anything towards these rebates is the man who got the shopper's trade, and he pays in the exact proportion of the cash trade he received. But undoubtedly has ever arisen in the rebate system and that is the occasional effort of a number of the larger merchants to confine the plan to themselves and shut out the smaller dealers. This feature has been fully canvassed, and it has been determined that the advantages of the system will be open to every merchant in the city who wishes to co-operate. The banks which pay the rebates recognize only the members of the rebate plan, so that in order to have his fare refunded the out-of-town shopper must trade with the members of the association only.

The system which will be organized in La Crosse is designed primarily to advance the interests of the city as a whole. By this plan every merchant who comes in will have an equal chance at the new trade with every other. It is desired to make the association so extensive in its membership, and so varied in the interests represented, that the visitor will have a of the best stores open to him and will be able to supply every human need from among its members. To achieve the greatest good for the city it is necessary that every merchant co-operate. Petty jealousies should be buried and the spirit of "boost" should animate every man who is willing to see this city take the place to which it is entitled among the live aggressive, up-to-date cities of this country.

ESCH IS AFTER LENROOT'S MEN

STARTS CAMPAIGN TO WIN OVER MR. ESKERN

SENATORIAL SITUATION CLEAR

Next Week May See the Expected Break and Everything Looks Favorable for La Crosse Man

(Special Tribune Dispatch.)
MADISON, Wis., April 20.—Before leaving for La Crosse last night Congressman John J. Esch held a conference with his friends. It is his plan to get his supporters at work in his own district, and by letters and telegrams bring the Eskern and what Lenroot following there is, over his column. This if accomplished, will mean the election of the La Crosse man.

Situation Clearing
MADISON, Wis., April 20.—The senatorial situation has at last begun to clarify and the ultimate contest lies between Congressman John J. Esch of La Crosse and former State Senator W. H. Hatten of New London.

While Stephenson intends to remain in the race to the finish, the expected withdrawal of Irving L. Lenroot, who has been unable to throw his support to the Marinette lumberman, has left his supporters pledged to Esch and Hatten for second choice.

From senators who are familiar with the situation it is learned today that the withdrawal of Lenroot will be made immediately. It is suggested that it will be published in the Milwaukee party organ either Sunday or Monday morning. Lenroot had a long conference with Speaker Eskern last night and an attempt has been made through a canvass of his supporters to get them to support Mr. Stephenson. That it has been unsuccessful is proved from the fact that it is said seven of his supporters are pledged for John J. Esch, about as many to Hatten and only two or three to Isaac Stephenson.

Further proof that the fight will be between Esch and Hatten is gleaned from the line-up of the Stephenson men who so far in the contest have been willing to desert him at any time. As the following of Lenroot is in no way pledged to Congressman Cooper it also seems probable that his withdrawal from the race is imminent.

The Esch supporters are well informed of the situation and in discussion last evening one of them declared that the only one to be feared was Mr. Hatten, who was considered as a compromise candidate by all the other factions. Col. O. G. Munson declares, however, that the support of the other candidates will go to Congressman Esch, who he believes will come out of the race successful. He says that his long and distinguished public career entitles him to the honor, and his experience in congress would give him a better showing in the final contest than that of Senator Hatten.

Among all candidates it is believed that the senatorial contest will be settled by the last of next week. A Milwaukee senator who has been here for several days looking over the situation declares it is certain that the caucus Tuesday night next will decide the matter, and that in no case will the final determination of the election be deferred later than Thursday. He explained that both the Stephenson and Lenroot following were disorganized and that the strong Esch organization in the senate gave him every possible opportunity of winning the contest.

Despite all the rumors that Lieutenant Governor Connor is taking an active hand in the contest, his failure to force Governor Davidson into the field and the vote of Theodore W. Brazee, his home senator, for Congressman Esch, indicate that if any support is given it will be for the La Crosse congressman. Governor Davidson declared in an interview that he could not or would not become a candidate.

A threat is being made by the supporters of the Stephenson men, principally by "Bo" Linscombe, a well known lobbyist, that if the Marinette lumberman is not elected at this time he (Stephenson) will withdraw his hands. This it is pointed out to the Lenroot following, will leave them without an organ, with which to voice their views in the state.

Probably there is no other baseball organization in the country composed of members of one family. The members of this team are all brothers, while the score keeper, umpire and a substitute also come from under the same roof. It is a team in name only, but they play ball, having a regular schedule of games. They have met some of the best amateur clubs in the surrounding country and their success has been manifest.

The family is a large one, numbering twelve brothers and three sisters. The brothers are Peter, John, Nick, Matt, Joe, Mike, Henry, Paul, Frank, Ben, Charley and Grover. The sisters are Ida, Mary and Tressa. John is married and living at Hillside and Pete is married, living at Midway. This does not prevent them from playing with the team.

All of the brothers are able bodied men and enjoying the best of health.

COLUMBUS, O., April 20.—Privilege of the field was denied Manager Doyle of Milwaukee early in yesterday's game, but Jack, from a seat in the bleachers, watched his Brewers knock the props from under the championship club and annex their first win, 8 to 5.
Doyle's trouble was most regrettable of a fistful of incidents. Umpire Hayes told him to leave the field just as Bateman came to the plate to commence the second inning. Jack demanded to know why he was to be banished. He got no answer and then called Bateman from the plate, signifying his intention to take the team from the field. However, he reconsidered quickly and let the players go back to work, which they entered into with more vengeance than was shown in either of the previous games.

Frank Schneiberg, the recruit from Detroit, went the whole route for Milwaukee and the whole route for the Brewers, with the Lancaster, O., amateur league club last year. Against the Brewers. In each and every inning the Senators so placed themselves that a hit would have meant a run, still they were able to score in but three of the nine. The score:

REAR-ADMIRAL HIGHBORN PRAISES PE-RU-NA.

Peruna Drug Co.,
Columbus, Ohio.

Gentlemen:—After the use of Peruna for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic.

Very respectfully,
PHILIP Highborn.

REAR-ADMIRAL HIGBORN

IF ALL the men and women who have used Peruna and found it beneficial should write testimonials giving the plain facts, we would be overwhelmed with certificates.

But only now and then one who has been benefited by Peruna stops to give any public acknowledgment of a cure.

Various considerations prevent people from writing testimonials for publication. Inordinate modesty, oversensitiveness and business considerations forbid many people from writing testimonials who otherwise would be glad to do so.

All Classes Represented.

But in spite of all these considerations, thousands of people without any solicitation whatever do write testimonials for Peruna.

We receive these from men of high degree and low degree, from the army and the navy, from the hall of congress, from the colleges, from high officials in the church, from the society belle and the washerwoman, from the military man and the civilian.

We have never put into print but a small per cent. of those actually received.

Sincere Testimony.

In presenting the testimonial of Admiral Highborn we appreciate the high rank of our testifier.

We feel sure that his testimonial will appeal to others as it does to us, that nothing but a genuine wish to do others good would have impelled a man in such honorable rank to give public testimony to any remedy, however valuable.

The Admiral is altogether too busy a man to answer letters of inquiry, but the reader can rest assured that his testimony is given in his exact words, over his signature.

Genuine Endorsements.

Our testimonials are and always have been given in the exact language of the testifier, with which we take no liberties whatever in adding to or changing them.

In the use of testimonials we have always received them properly signed, in good faith, have published them in good faith, and if there has arisen a slight misunderstanding concerning them, it has been some unavoidable complication occurring after the testimonial has been furnished us.

A Captain's Letter.

Rudolph B. Schwickard, Capt. 39th N. Y. Vol. Inf., writes from Washington, D. C.:

"Having the fullest confidence in the efficacy of Peruna, both as a tonic and as a remedy for catarrhal trouble, I commend its use in the strongest possible terms. It should be in every household."

BASEBALL SPIRIT PARAMOUNT

Each Applicant For the Team Is Being
Given a Thorough Try-out
Before Acceptance.

It's here. You don't know what it is, yet you feel it and the feeling is pleasant. It puts a broad smile on the face of the enthusiast, makes him stick out your hand to your worst enemy, and drives away all sorrows and woes. It is a sure cure for all ills and everybody likes to take the cure. Men and women alike are afflicted with the malady and no diagnosis of their case is needed. It is the balmy spring day and the opening of the baseball season referred to. Could anything be more pleasant to the fan—and La Crosse has more fans than any other city of its size in the country—than the opening of the ball season. Positively it can be stated, "No."

Evidence of the spirit with which baseball is held in La Crosse can be secured by talking with a business man or two. If you can find a man who is not interested in the great national game you will find a curiosity. The business men, instead of talking shop, now talk baseball. Every player who has reported to Manager Hawley up to date has had a thorough overhauling by this time. A man can get baseball crazy and no one thinks anything of it. Many have gone permanently insane from following the game, but what is the difference, all the time they are in a pleasant frame of mind, seeing plays that the fan of sane mind rarely sees.

Since the practice of the local squad started, which was Wednesday morning, several hundred fans have been out to League park. The weather has been chilly to stand around in, but this has made little difference. Morning and afternoon the work of the boys has been watched eagerly.

It is anticipated that the Wisconsin league will pass the best year in its history this season. Reports received from the various cities in the league indicate this. The efforts of the managers to place in the field pennant winning teams, and the support afforded the associations to bring this about, tend to show the unusual amount of enthusiasm being expressed.

La Crosse has been fortunate in taking all the glory since the league was organized three years ago. The fans here rallied to the support of

the club in its first year and came back twice as strong last season. From the looks of things at this time even greater interest will be displayed in 1907.

George Bubser, player manager of the Oshkosh team, has reported for duty, arriving in that city Wednesday from his home in Rockford. The players are not required to report for duty until next week.

The first practice game with an outside team will be played at the New White City baseball park Sunday, April 28, if the schedule of practice games arranged by President H. C. Danforth of the Oshkosh Baseball association is maintained. This contest will be with the Fond du Lac team.

April 29 and 30 practice games will be played with the Lawrence university team and then will come the Houghton (Mich.) team for two games on May 1 and 2.

The Duluth team is scheduled to play here May 3 and 4, and the Fond du Lac team on May 5, 6 and 7. These will conclude the practice games and the team will then go to Madison to open the season with the Madison team of the state league, May 9.

Manager Bubser states that the list of players signed by both himself and President Danforth is practically complete and that from the "bunch" will be called the players to be retained to make up the team. The list as it now stands is as follows:

Pitchers, Bubser, Kerr, Crangle, McKnight, Palmer, Harkleroad, Converse, H. Sullivan and Tice; catchers, Morrow and Donohue; shortstop, Schreiner and Ryan; first base, Ike Quinn is the player who assisted and a player from the Dubuque (Ia.)

Pastor Uses Pe-ru-na.

Rev. D. E. Swanstrom, box 223, Grantsburg, Wis., writes:

"I feel that it is my duty as well as a pleasure to let you know that I am entirely cured. I have used Peruna according to your personal directions and I am very glad that I found a medicine which would cure me after three years of suffering."

Editor's Recommendation.

Fred M. Armstrong, city editor, Daily Gazette, Delaware, Ohio, writes:

"It gives me great pleasure to be able to recommend Peruna to everybody who is looking for a first-class tonic. Two bottles completely cured me and now I am enjoying the best of health."

Congressmen Endorse Pe-ru-na

Hon. W. E. Andrews, Hastings, Neb., formerly vice-president of Hastings College and ex-member of the Fifty-fourth Congress, writes:

"I cheerfully recommend the preparation, Peruna, as a healthful tonic and a successful remedy for catarrh in its various forms."

Author Praises Pe-ru-na.

Mr. Robert E. Hanvey, well-known author and lecturer, writes from 11 S. Lincoln street, Chicago, Ill.:

"I was in good health until about four years ago when my back became lame and sore. The pains kept increasing with severe twitches and slow exhaustive aches. Having read of Peruna, I decided to try it. I found relief in ten days. Within three months I was well once more. I give all thanks to Peruna."

team; second base, Hoffman and Hazel; third base, Thomas Sullivan and Kotz; fielders, Dolan, Sallout and Harry Sullivan. Graves, who played with the Oshkosh team last year, has not yet been signed.

Ed Darrch, the former Dubuque pitcher, has reported at Freeport. Darrch is a good pitcher and will do much to give Freeport a winning team.

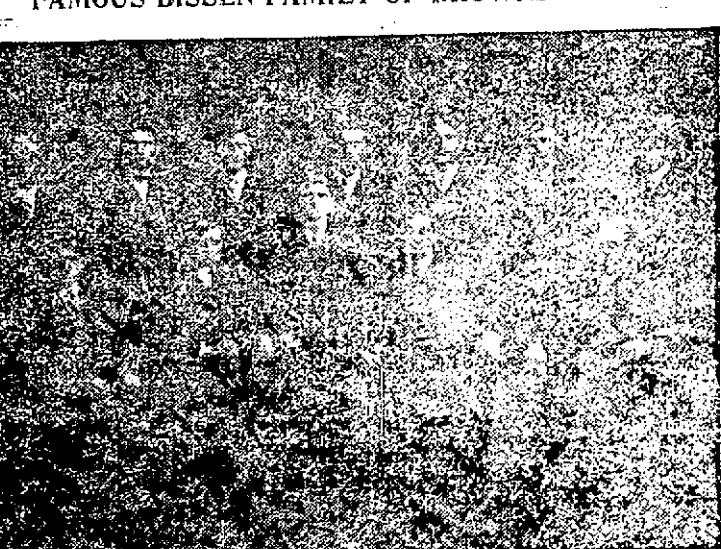

Assmuson, Eau Claire's manager the greater part of last season has struck a job with Aurora, Ill. Al Tobean, also a former Eau Claireite according to the Aurora News, has been elected manager and already has his team blocked out and ready for action. Flek, another former Eau Claire player, will pitch, and Goldsmith who was with Eau Claire last year will be in right of he does not play in that league again.

Cassibone, of the Madison team in the Wisconsin league, is in Springfield to bid for some of Kluzeila's numerous ineligibleities. There will be a heavy pruning soon.

Two more of Manager "Pink" Hawley's recruits, gripsacks in hand, arrived here yesterday. Quinn, the outfielder from Etna, Pa., and Nelson, a pitcher from Minneapolis, are the new arrivals and will at once get in training. Nelson is an entirely new man to local fans and has been playing semi-professional ball in Minneapolis and surrounding country. He will be given a thorough work-out.

The Champs the later part of last season, so is not unknown here. His work was appreciated by the fans and the association during the pennant race of last season and he will be given a berth if his work deserves it.

HIS RECORD IS ESCH'S STRENGTH

The optimism with which the active supporters of Hon. John J. Esch are imbued is a splendid indication of the seriousness of his candidacy for the United States senate. His friends everywhere are delighted with the situation as it is reflected to them through the opinions of those most intimately connected with his campaign.

Were public record to be made the basis of a choice of senator to succeed Mr. Spooner, Mr. Esch would be named without contest. His name is attached, as proof of his deeds, to two of the most important pieces of legislation that have been enacted in congress since the Civil war. The Esch-Townsend bill is the real railroad rate law. The Esch-La Follette Hours of Service law is of equal importance. Blatant less weighty things Mr. Esch has done, these place him indisputably at the head of the procession.

Next to Mr. Esch in meritorious public service is Mr. Hutton, the power that directed the enactment of the Wisconsin state railroad legislation. He is a great man.

But, so far as political machinery is concerned, these men are not considered. Mr. Stephenson is first choice. Why? Because he supported Senator La Follette's excellent program with money. Again, why? To get even with Phil Sawyer and others who gave him the worst of a political deal. "Uncle Ike's" sole claim is that he has bought the toga.

Leontout is a good man, but with no record attesting his efficiency. He sought the nomination for governor and carried but two counties in the entire state. It cannot be urged that by his election a popular demand would be answered, or that popular representation would be afforded.

Bar, thanks to the education to which Senator La Follette has himself contributed, the legislature is not apt to stand and deliver when the command is given. The present dead-lock shows that Mr. Esch is, as he should be, the leading candidate. He occupies a position that is recognized by great newspapers all through the country as entitling him to first consideration. There is but one danger to his candidacy. It is the danger that when other candidates rise up, they may say: "I can't win this time. I may next time. If Esch is elected, he will hold the office long. If Stephenson is elected, there will be another vacancy in two years, and I will have another chance then."

It will be distinctly reassuring if so vocal a consideration is not permitted to influence the Wisconsin legislature. It cannot unless the individual candidates hold such sway over their followers as to enable them to dictate the perpetration of an act the propriety of which is beyond question. If legislative honesty can be depended upon to eliminate Stephenson, the public wish will be gratified in the election of John J. Esch.

A PUBLIC DEMONSTRATION.

The PUBLISHERS are immensely grateful to the citizens who were present at the reception tendered at THE TRIBUNE office last night. It was a splendid gathering. It was doubtless the most largely attended reception ever given in La Crosse. It resolved itself into a great demonstration.

AUTOMOBILE SPEED LIMIT.

(Evening Wisconsin.)
The bill for the regulation of automobiles which has been reported to the assembly by the committee on state affairs, makes the maximum speed permissible on public highways ten miles an hour in cities and twenty miles an hour in the country, with the provision that in the country as well as in the city ten miles shall be the highest speed permissible after dark. There are strict provisions regarding lamps and more stringent penalties for non-compliance than are provided in the present law.

Certainly something is necessary to protect the public from reckless motorists. Whether the best method is to enforce a speed limit law or to hold the automobilists to strict accountability for any damage that may result from their free use of the roads is a matter of dispute, and can not be settled to the satisfaction of all parties till there are more data to go upon than at present.

The bill which the assembly committee has reported is the result of an earnest effort on the part of men who have carefully studied the problem and are anxious to solve it fairly.

SHE MARRIED THE IDIOT

(Philadelphia Inquirer.)
Mr. Misfit (savagely)—Before I married you was there any doddering idiot gone on you?

Mrs. Misfit—There was one.

Mr. Misfit—I wish to goodness you'd married him!

linotype slug souvenirs, had been carried away.
A demonstration of this sort is calculated to inspire a variety of emotions. We are gratified beyond measure over the results. We knew THE TRIBUNE had lots of friends, but that so many of them were so deeply interested in its success as to devote an evening to this expression of their good will was a most pleasant surprise. We believe every visitor of last evening left with the impression that THE TRIBUNE is the paper of fair play and independent citizenship more deeply implanted than ever, and with a friendship for the paper and its publishers more than ever firmly fixed.

As to the equipment, which was the entertainment, there need be no words expended. The people saw it, and seeing is so much better than being told. Suffice to say that widely traveled men having intimate relations with newspapers, substantiated the management's statement that this is the finest newspaper plant to be found in a city the size of La Crosse anywhere in the United States.

To digress for a moment, and "talk shop," we desire to call the attention of the merchants and business public to a feature of the reception of material concern to them. This reception was advertised by two 3-inch display "ads," two news readers and an editorial. That advertising brought 5,000 people to THE TRIBUNE offices. It is a case where the exact result of the advertising was shown, for under ordinary circumstances not to exceed 100 people would enter the offices during a single evening. Any merchant knows the value of his business of getting 5,000 people into his establishment. The results last night show conclusively that many people can be called together by an advertisement in THE TRIBUNE. Therefore all any merchant need do is to advertise something in which 5,000 people are as deeply interested as they were in THE TRIBUNE opening, and publish the advertisement in THE TRIBUNE, to get the same results that were secured last evening.

A little more "shop": The public need but glance at any issue of THE TRIBUNE to be convinced that La Crosse is to have a magnificent newspaper, one worthy of patronage and fit to compete with the daily papers entering this field from the great cities. In yesterday's 24-page issue there appeared approximately 90 columns, or 1,800 inches, of display advertising and 78 columns of news and news features. The advertisements were not "medicine shop," they were the "ads" of La Crosse business men extolling the legitimate business of La Crosse. It was a world-paper in its news, and a La Crosse paper in its advertising. It is THE La Crosse newspaper. It stands for two things: First, for La Crosse; second, for greater La Crosse.

"Thanking you, one and all, for your kind attention," etc.

We suggest that there are in the present council men who are not so enslaved to politics as to fear action looking to making the Mississippi wagon bridge free.

There is a growing suspicion that there is something more sinister than neglect behind the forgetfulness of the legislature regarding the municipal utility control bill.

The picture of Hawley sliding to third is calculated to inspire the belief that the champs have been incorporated with the ice trust.

Under the urge of harmonious effort La Crosse is likely to become afflicted with growing pains.

Hypnotists

Herbert L. Flint is the first hypnotist to be called in a criminal case and have his testimony accepted as that of an expert. The facts that they do are simply marvelous and we may well expect a packed house when they come to this city.

The Flints are past masters in the art of suggestion, especially that part pertaining to provoking laughter. They will open their engagement at the La Crosse theater tomorrow night.

EXPERT MEDICAL TESTIMONY

(Washington Star.)
Members of the medical profession with a leaning toward the study of mental diseases are beginning to realize that the "expert alienist" business has been rather overworked and that a popular prejudice has set in against the hiring of specialists to testify in murder trials in which the insanity defense is introduced. In Philadelphia recently one of the leading specialists in brain troubles was interviewed on the subject and expressed himself strongly as favoring a new system of ascertaining the mental condition of defendants in such cases. He holds that it is now necessary to abandon the extreme method of ascertaining the mental condition of defendants in such cases. He holds that it is now necessary to abandon the extreme method of ascertaining the mental condition of defendants in such cases.

ELKS ASKED TO GIVE UP TEETH

PRESIDENT AND GRAND EXALTED RULER INTERESTED

LETTER READ IN LA CROSSE

Slaughter of Elks in West for Their Teeth Is Deplored by Executive—Will Drop Emblem

Elk teeth worn as charms by members of the U. P. O. E. throughout the United States are to be discarded. The matter will be considered at the meeting of the grand lodge to be held in Philadelphia on July 1 and it is thought that action will be taken. President Roosevelt has made the request interceding for the residents of the western states, who claim that the elk are fast being exterminated. The people appealed to the government to protect the elk so that they will not become extinct like the buffalo.

The discarding of the elk charms will represent several million dollars at the lowest estimate.

However, there remains little doubt that the teeth will be discarded by members of the order.

At the last meeting of the La Crosse lodge No. 300, Thursday evening, a communication was read from Grand Exalted Ruler Melvin of California, including messages from President Roosevelt and the legislature of Wyoming.

It is said that in the state of Wyoming where the noble animal is plentiful vandals kill hundreds of elk, leaving their carcasses to decay after extracting the charm teeth of which there are but two in each elk. It is said the animals are being mercilessly slaughtered and the Wyoming legislature and the people of the state are up in arms against the abuse. These teeth are valued at from \$2 to \$100 and more each and in pairs perfectly matched have brought as high as \$1,000 per pair.

David Meyer, the well known western salesman for the Grand Browning company of this city has been collecting teeth and on a recent trip to La Crosse had twenty-four dozen perfectly matched pairs. Many collectors have fortunes invested in teeth.

The recommendation of the grand exalted ruler read before the La Crosse lodge Thursday night recommends the discontinuance of their use but it will be made compulsory when the next grand lodge meets in Philadelphia, provided their abolition is favorably voted, which it very likely will be.

PRIEST IS DEIFIED

Old Dutch Custom of Dancing at Little Chute Broken by First Night Party

APPLETON, Wis., April 20.—Flaming acts of defiance upon the edict of Father Knegtel of Little Chute, 132 couples assembled at the dance hall and sample room of Joseph Van Cansu Wednesday night, and broke the light fantastic until 2 o'clock Thursday morning. This was the first night dance ever given in the village of Little Chute, the place being one of the oldest settlements in the Fox river valley.

The agitation for night dances came into prominence among the young Hollanders of the village a few weeks ago. The matter was referred to the Rev. Father Knegtel, the young people desiring to secure his permission before deviating from the custom of their forefathers, who for fifty years have danced only in the daytime. Immediately the divine objected to this procedure, and issued an ultimatum to the effect that any of his parishioners caught dancing after darkness will be summarily expelled from the church, and also declaring that if the movement became general among his people he would resign from his position. The young people took exception to this peremptory order. Several meetings ensued, and it was finally decided among many to transgress the order of the priest.

BURIED UNDER COAL

Laborer at Escanaba Is Rescued Alive After Twenty-four Hours

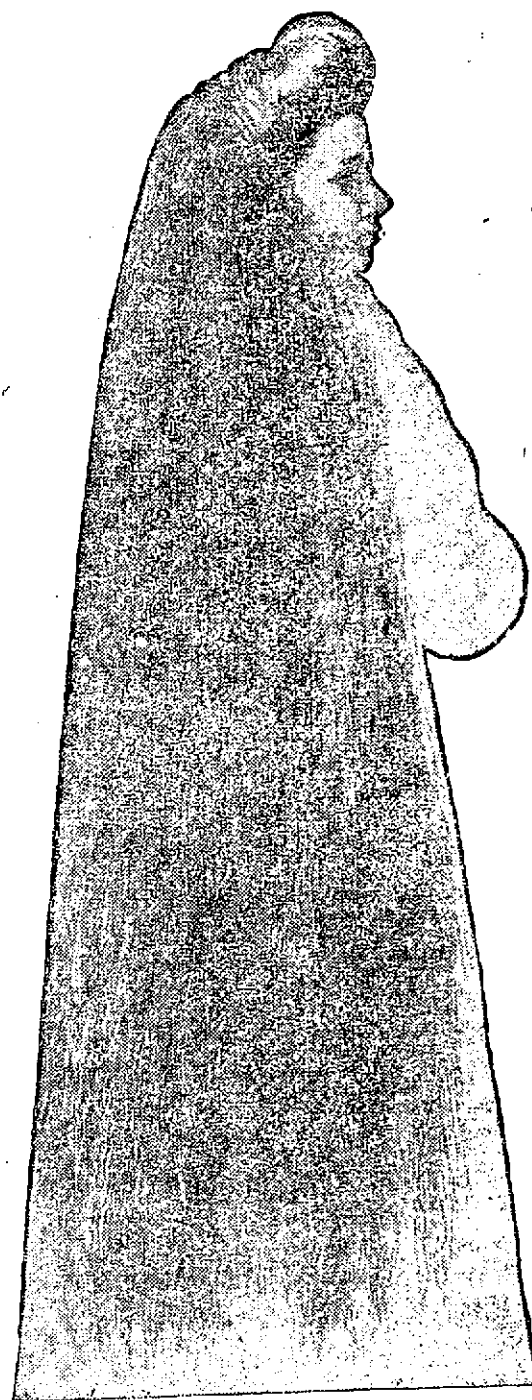

ESCANABA, Mich., April 20.—Caught in a mass of coal, Frank Erickson, a laborer, was carried head foremost through a chute at the Reis Coal company's dock yesterday afternoon, and after being entombed under twenty-five tons of coal for an entire day was rescued at 3 o'clock in the afternoon alive.

He was bruised from head to foot and sustained internal injuries. There is slight hope for his recovery.

The disappearance of Erickson from the dock was not discovered until last night and crews dragged the bay, thinking he had drowned. This afternoon when a car of coal was being dumped a feeble shout was heard. The car was quickly emptied and Erickson was found alive and conscious. He said he had heard men passing the car through the night and had shouted repeatedly, but could not make himself heard.

NEWBRO'S HERPICIDE

Is the original remedy that "kills the dandruff germ"

EDNA D. ALLEN

WITHOUT dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, this germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

A WOMAN TO BE PRETTY

A woman to be pretty must have pretty hair. Beautiful locks have a subtle charm, for the poet says, "fair tresses man's imperial race ensnare." The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lusterless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide. Overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye. Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp, and also for its excellence as a regular hair dressing. It is delightfully fragrant and refreshing.

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and leaves the hair soft and silky."

OBSERVE ARBOR DAY APRIL 26

PRESIDENT ISSUES MESSAGE TO THE CHILDREN.

ADVISES PLANTING OF TREES

Custom Inaugurated by J. Sterling Morton Will Be Observed in La Crosse Schools.

Preparations are being made in the schools for the proper observance of April 26th, Arbor day, which is almost here. The following message has been addressed to the school children of the United States and is being read to all of the pupils in the La Crosse schools:

"To the School Children of the United States:

"Arbor day (which means simply 'tree day') is now observed in every state in our union—and mainly in this month of April, you give a day or part of a day to special exercises and perhaps to actual tree planting, in recognition of the importance of trees to us as a nation, and of what they yield in adornment, comfort and useful products to the communities in which you live.

"It is well that you should celebrate your arbor day thoughtfully, for within your lifetime the nation's need of trees will become serious. We of an older generation can get along with what we have, though with growing hardship; but in your full manhood and womanhood you will want what nature once so bountifully supplied and man so thoughtlessly destroyed, and because of that, what you will reproach us, not for what we have used, but for what we have wasted.

"For the nation as for the man or woman and the boy or girl, the road to success is the right use of what we have and the improvement of present opportunity. If you neglect to prepare yourselves now for the duties and responsibilities which will fall upon you later, if you do not learn the things which you will need to know when your school days are over, you will suffer the consequences. So any nation which in its youth lives only for the day, reaps without sowing, and consumes without husbanding, must expect the penalty of the prodigal, whose labor could with difficulty find him the bare means of life.

"A people without children would face a hopeless future, a country without trees is almost as hopeless, for forests which are so used that they cannot renew themselves will soon vanish and with them all their benefits.

A true forest is not merely a storehouse full of wood, but, as it were, a reservoir of water. When you help to preserve our forests or to plant new ones you are acting the part of good citizens. The value of forestry, therefore, to be taught in the schools, which aim to make good citizens of you. If your arbor day exercises help you to realize what benefits each one of you receives from the forests, and how by your assistance these benefits may continue, they will serve as a good end.

EUTERPEAN SOCIETY MEETS

Goethe, Gounod and Van Dyck Among the Characters Studied at Last Night's Meeting

One of the most interesting programs of the season was rendered at the regular meeting of the Euterpean club last evening. The three characters studied last evening were Goethe, Gounod, and Van Dyck. Musical selections from Gounod made the evening's program especially interesting.

An excellent illustration of character of Gounod was given when a song was rendered by a quartet composed of Mr. J. R. Kerr, Mrs. B. F. Keeler, Miss Van Wormer, and Mr. Taggart.

The members were delighted to hear Miss Johnson who sang, "When to Thy Vision" from "Faust" and by request for an encore, "The Wind in the Chimney."

Selections from Goethe were read by Professor Otto Wieland.

The characterization of Van Dyck by Miss MacNair was one of the most interesting features of the program.

Charles Schweizer presided at the meeting in the place of the Rev. Henry Faville. The last meeting will be held in two weeks. After this the club will adjourn until the second Thursday in October.

WANTED A MAJORITY DECISION

(Washington Herald.) "Get another doctor," demanded Mrs. Gotrox, "to pass on my ailment."

WILLING TO BE THE LAST

(Illustrated Bits.) "What! You going to propose to Miss Heartburn! Why, you're the last man in the world she'll engage herself to."

"I hope so dear old chappie."

BUSINESS EXPANDS THE TRIBUNE WAY

EDWARDS TO BUILD NEW STORE
SOUTH OF TRIBUNE

WILL PROBABLY BUILD MORE

Says This Is the Natural Business
Outlet and That This Section
Will Grow Rapidly

President R. E. Edwards of the La Crosse City Railway company has confidence that a building boom on South Fifth street will follow the location of The Tribune in its new quarters, and as a substantial evidence of his confidence that The Tribune has established itself in what will soon be the heart of a new commercial center in the city, he is building a modern three-story brick building on South Fifth street, just south of the new Tribune building.

The new building is to have forty feet frontage and will be eighty feet deep. The lower part of the building will be used for store space while the upper floors will be used as flats. The cost of the new building will be about \$10,000.

In speaking of the new building and the reasons for building in this location Mr. Edwards said:

"South Fifth street is the natural course for the city to take as it grows. It is cut off below by the market square and on upper Main street by the churches. On South Fifth street there is a straight stretch that is not obstructed in any way. The city is bound to move this way. I am agreed in renting this building. I will tear out the house between The Tribune and the new one, and erect another building."

THE KNOW HOW To Feed Children and Get Good Results

There are more nervous persons made so by undigested food lying in the stomach than the average individual would suppose.

If food remains undigested in the stomach, it begins to ferment, set up gas and a nervous condition is thus converted into poison.

That is why imperfectly digested food may and often does cause irritation of the nerves and stupor of the mind—brain and nerves are really poisoned.

"My daughter had complained for some time of a distressed feeling in the stomach, after eating, which set me thinking her diet was not right," writes an anxious and intelligent mother.

"She had been fond of cereals, but had never tried Grape-Nuts. From reading the accounts of this predigested food, it seemed reasonable to try Grape-Nuts for her case."

"The results were really wonderful. The little brain that seemed at times unable to do its work, took up new life and vigor. Every morning, now, before going to school, she eats her crisp little morsels and is now completely and entirely well. She seems to have a new lease on life—no more distress in the stomach, no headache, but sound and well every day." Name given by Postum Co., Battle Creek, Mich. I have not been taking it very long, but I am sure of good results; I have good color in my face and feel that I can work with a great deal more ambition. I cannot praise it too much. TWO SISTERS HAVE ECZEMA OF HEAD

Two Illinois Girls Suffer from Scalp Trouble—Another Sister Needs a Tonic—Friend Suggests Cuticura—They Use It and Now Give.

MUCH PRAISE TO ALL CUTICURA REMEDIES

"I must give much praise to all the Cuticura Remedies. I used but one case of Cuticura Soap and one box of Cuticura Ointment, as that was all that was required to cure my disease. I was very much troubled with eczema of the head, and a friend of mine told me to use the Cuticura Remedies, which I did, and am glad to say that they cured my eczema entirely. Since then we have always kept the soap on hand at all times. My sister was also cured of eczema of the head by using the Cuticura Remedies. Another sister has used Cuticura Resolvent and Pills and thinks they are a splendid tonic. I cannot say exactly how long I suffered, but I think about six months. Miss Edith Hammer, R. F. D. DECISION IS OF LOCAL INTEREST

NEBRASKA DECIDES CASE IN LUMBERMEN'S FAVOR.

IT HAS LEGAL EXISTENCE

Interest Here Depend on Attempts to Minnesota to Investigate North-west Association.

La Crosse Lumbermen, mill-owners and general manufacturers will be interested with other northern lumbermen in findings just filed by a referee in actions in the supreme court of Nebraska, in which it is declared that the Nebraska retail lumber dealers association is not an unlawful organization and that its operation had not been in violation of the laws of that state.

The findings of the Nebraska court are of special interest to Wisconsin lumbermen, and other northern concerns because of their recent efforts of the legislature of Minnesota to institute an investigation of the Northwestern Lumbermen's association, which is an organization almost exactly similar to the Nebraska concern, and includes many Wisconsin and Minnesota firms.

The articles of association of both of the lumber organizations were drawn by Charles J. Traxler, and they are almost identical, the only difference being in detail that would not be essential in a suit such as the one just heard in Nebraska.

The action in the supreme court of Nebraska was begun on the part of the state more than a year ago when Morris Brown was attorney general, and its purpose was to restrain the Nebraska Retail Lumber Dealers' association from operation on the ground that its members, 370 in number, had conspired to monopolize the retail lumber trade of the state for the purpose of restraining trade, regulating prices, pooling profits and of restraining internal trade among its members by dividing the territory of the state among them.

After the retirement of Morris Brown from the office of attorney general the case was prosecuted by his successor, W. T. Thompson, who had associated with him H. M. Sinclair. The lumbermen's association was represented by John S. Kirkpatrick of Omaha and Charles J. Traxler of Minneapolis. The testimony was taken before A. M. Post, former chief justice of the supreme court of Nebraska, who was appointed by the courts as referee, and Judge Post has filed his findings.

As conclusions of law, the court finds:

"The purpose of the Nebraska Lumber Dealers' association as declared in its articles of association, are not unlawful.
"The declared purpose of said association being consistent with the provisions of the anti-trust laws of Nebraska, the defendants are not from the mere fact of association, chargeable with acts in violation of such laws, done without their knowledge or consent by fellow members thereof.

"The facts as proved and found do not, except as herein otherwise stated, show any agreement, combination or conspiracy in restraint of trade as defined by the statutes of Nebraska.
"The facts proved and found do not, except as herein otherwise stated, amount to an unlawful trust as defined by the statutes of Nebraska.
"The facts as proved and found do not, except as herein otherwise stated, show any agreement, combination or conspiracy to monopolize any part of the trade and commerce of the state of Nebraska.

"The defendants, except as herein otherwise stated, were not at the date of the commencement of this action, guilty of monopolizing any part of the trade and commerce of the state of Nebraska.

"The unlawful combination between the defendants, the Barnett Lumber company and the W. C. Bullard Lumber company, mentioned in the accompanying findings of fact, is presumed to have continued until the date of the commencement of this action, and the state is entitled as against said defendants, to judgment as prayed in its petition."

HILL AT MADISON SEEKS TO HAVE CITY CONTESTS BASED ON CITIZENSHIP.

MADISON, Wis., April 20.—Five new bills came into the assembly. The most important provides for doing away with primary election and party lines in city elections, excepting those of the first class. Another requires that cattle imported into the state be first inspected immediately on arrival.

The assembly passed the Donahew bill prohibiting the use of tobacco by persons under 16 years of age. It now goes to the governor. The assembly killed the memorial to congress for a parcel post, introduced by a social democrat. There was a long fight over the stringent auto bill, but action was deferred until next Wednesday.

The senate spent the morning discussing the medical bill prohibiting illegitimate advertising, and advanced it.

JOHNSON IS NAMED

BEAVER DAM MINISTER MADE MODERATOR BY THE PRESBYTERIANS.

WAUKESHA, Wis., April 20.—The spring meeting of the Milwaukee Presbytery was held in the Presbyterian church of Waukesha this week. The Rev. J. P. Slagle, of Bethany church, Milwaukee, preached the opening sermon and the Rev. T. Z. Johnson of Beaver Dam was chosen moderator with the Rev. R. S. Donaldson of Perseverance church, Milwaukee, temporary clerk.

There was an attendance of thirty-five ministers and twelve visiting elders, not including several ministers, missionaries and Christian workers, and many friends from the city and county.

The Women's Missionary society held its spring meeting in the Congregational church of Waukesha, at the same time.

The Rev. C. H. Williamson made a report of the work of the board of publication and Sunday school work, showing increased activity.

The Rev. J. V. R. Hartness, the Sunday school missionary of Milwaukee Presbytery, told of his work in Dodge county and in the city of Milwaukee.

The morning session on Wednesday was devoted to reports of the committees on home mission, church erection, ministerial relief and education. In the afternoon, the Presbytery met with the students of Carroll college and held a devotional service. Addresses were made by the Rev. G. M. Colville of Racine, and President W. O. Carier.

A resolution was unanimously adopted asking Dr. Carier to decline the overtures of the Chicago committee, a home mission, and to remain with the college. The Presbytery agreed to co-operate with President Carier in the support of the college. Dr. G. M. Colville and Dr. J. W. Sanderson made addresses on the foreign missionary work, and in the evening there was a popular meeting in the interest of home missions with a stirring address by Rev. Samuel N. Wilson, D. D., of Wausau.

JUDGE SHOWED HIM

ANGERED AT WITNESS THE MAGISTRATE USES FORCE.

GREAT FALLS, Mont., April 20.—Justice of the Peace John Q. Dempsey of Belt has been arrested on a charge of assaulting a witness whose testimony in a case which was being heard by the justice did not suit that official. The complainant against Justice Dempsey is Joe Buckingham, a rancher.

Buckingham had been arrested on a charge of cruelty to his stock. He took the stand to testify in his own behalf. The court accused him of lying about the case, and also took exception to the manner in which the witness answered questions. Finally losing his patience, his honor, shouted:

"That's no way to answer my questions. I'll teach you to get away with this court," and sat the action of the witness on the witness stand, which knocked him out of the witness box. The justice then proceeded to assist the witness by a series of hearty kicks with his boots. He then had him arrested for contempt of court, but after Buckingham had been incarcerated a short time, the justice's anger cooled and he ordered the man released.

Buckingham swore out a warrant for the arrest of the justice on a charge of assault and battery.

MARRIED A GERMAN

SO ITALIANS NEAR RACINE THREW A RIOT AT WEDDING

RACINE, Wis., April 20.—Excitement is at fever heat in the village of lives, seven miles north of this city. Several hundred Italians, engaged in working in the stone quarries, are celebrating and little work was accomplished today.

It is all an account of Mrs. Mary Sasso, widow of Mike Sasso, known for years as the king of the Italians, marrying Gottlieb Smith, a young German farmer, son of William Smith, a democratic leader of Calceonia. Several of the Italians wanted to wed Mrs. Sasso themselves, but she turned a deaf ear to the sons of Italy and accepted the sturdy German. Hints have been given out that the German will be killed in a year, but when the bride a few hours was called upon asked her version of the danger to her husband, she spoke lightly of it and did not appear in the least alarmed, claiming she had a right to marry whom she pleased.

PLAN BIG BAZAAR

SINGER SOCIETY ADOPTS A PLAN TO RAISE CASH FOR SAENGERFEST

Early in October a mammoth bazaar will be held at the Germania hall for the purpose of raising funds to assist in carrying on the Saengerfest to be held here next year. Preliminary arrangements were made last night at a meeting of the committee.

It is planned to have all of the singing societies and other organizations in the city participate, and to this end a committee was appointed, consisting of Hugo Schick, president of the Duerksen Verein, and John Malin, president of the Frohsinn Verein. This committee will take up the matter with other societies.

The music committee, to have charge of the program of the saengerfest, was appointed by President William Doerflinger last evening as follows: Joseph Risse, chairman, Oscar Frey, A. P. Thomas, Robert Isler, M. O. Forsyth, Charles Weiss, Miss Barbara Russel and J. L. Utterbach.

William Doerflinger was made chairman of the committee on badges and authorized to place an order for 1,000 handsome souvenir pins to advertise the fest.

The Saengerfest Monthly, a publication to be edited by J. L. Utterbach, will make its first appearance in October, and will come out every week thereafter for ten consecutive weeks.

TOWN HAS TWO MAYORS.

REYNOLDS, N. D., April 20.—This town has two mayors—D. J. Hennessy and Dr. Halliday. At a recent election they received an equal number of votes and Dr. Hennessy was awarded the office of mayor. Meanwhile Hennessy has opened an office and is taking charge of the city government, or so much of it as refuses to submit to Mayor Halliday. A special council meeting has been called to act upon the matter.

ADVICE TO RHEUMATICS

Noted Physician Tells How to Prevent and Cure Rheumatism, Kidney and Bladder Troubles.

From Chicago Tribune.

(By George Edmund Flood, M. D.)

We are in danger of becoming a nation of invalids because of the rapid increase in the number of persons afflicted with Rheumatism, Kidney, Bladder or Urinary trouble in some form. "How to prevent and cure these afflictions, which have become almost epidemic in America," is the question I have been asked and will answer briefly.

It is an established fact that Rheumatism is due to Kidney Trouble. With the kidneys properly performing their functions there would be no Rheumatism. Therefore, let us get at the root of the trouble and remove it.

In the first place, Americans as a rule eat too much—if not too much, too rapidly. Many of us not only eat too much and too rapidly, but we eat too great a variety of foods, which are not only hard to digest but almost worthless so far as nutrition is concerned. Then we drink too much of every liquid except water, and too little of good, pure water. What happens? The kidneys become clogged up despite their desperate efforts to carry out of the system the vast amount of useless waste which we take in. The result: This waste and poisonous material remains in the system, is carried all through it by the blood, and makes the most fertile soil in which the germs of Rheumatism are deposited and mature.

The situation is a serious one, yet the remedy is simple. If you would avoid Rheumatism and Kidney and Bladder Troubles, eat moderate quantities of heavy, rich foods, substitute as far as possible soups, broths, fresh milk and drink water plenty of time to eat, and don't eat after you have had enough, even if it does taste good. If your work is confining take a moderate amount of exercise each day in the open air.

Of course, neither diet, water, rest, nor exercise will cure these afflictions. I advise them as preventives only. For the benefit of the readers of this article who are now afflicted with Rheumatism, Kidney, Bladder or Urinary trouble, and desire to be cured quickly, I give below, complete in every detail, the famous prescription which has made me so successful in the treatment of these diseases. It is the most certain cure for these diseases that I have ever used. It is pleasant to take, it is not expensive, it can be filled by any druggist, and I believe it is the greatest prescription for Rheumatism, Kidney and Bladder Trouble ever written.

It is also a valuable spring tonic and a blood purifier. If you are a sufferer, save this, take it to your druggist and have it filled, or get the ingredients and mix them at home.

Fluid Extract Cascara Aromatic, 1/2 ounce; Concentrated Barkola Compound, 1 ounce; Fluid Extract Prickly Ash Bark, 1/2 drachm; Aromatic Elixir, 4 ounces.

Adult dose, take one teaspoonful after meals and at bedtime; children one-fourth to one-half teaspoonful after meals.

After you are cured follow the advice I have given you in regard to diet, exercise and water, and you will not need the services of a physician again for these ailments.

HEAD OF DIAMOND JO LINE SAYS THEY WILL WAIT FOR NICE WEATHER

It reports from down the river are correct the boats of the Diamond Jo line will not be placed in service for another month yet, owing to the continued chill of the weather. The following is from the Davenport Times:

"The opening of the Diamond Jo boats is likely to be late this spring for the reason that the beginning of the schedule is conditioned very much on the weather. Balmey weather which will encourage the passenger business is demanded, a condition of weather which is not promised early this year.

"Captain Isaac P. Lusk, general freight and passenger agent of the line, stated Tuesday that the first Diamond Jo boat to be placed in commission would be the Sidney, which will enter at usual the short line schedule. This schedule gives the boat alternating trips between St. Louis and Keokuk and St. Louis and Burlington. The Sidney will leave St. Louis, where she has just received a thorough overhauling of her boilers in addition to the customary repair work, and to make the first long trip of the short line schedule, going to Burlington. Later the boat is likely to follow the custom of the line by alternating between the St. Louis and Rock Island and Burlington, though no official announcement has as yet been made relative to the matter.

"The change, if made, will not come till the summer months, and the Quinby which is slated to be the boat placed first in the through trade, will not start out till warm weather, so it will be a month before the first Diamond Jo steamer lands at Rock Island."

AGREE ON FISHING ABANDON EFFORT TO GET ISLAND

MINNESOTA LEGISLATURE AGREES LAWS ON THIS SUBJECT

ST. PAUL, April 20.—The house passed the senate file of the bill drawn by the joint committee which visited Wisconsin to formulate a comprehensive law relating to the fishing in the waters between the two states. The same bill is being passed by the Wisconsin legislature, so there will be no conflict regarding the fishing in the St. Croix and Mississippi rivers. The bill was introduced in both houses and the senate bill was passed first and was substituted for the house bill at the bottom of the calendar.

Near the close of the session Alvin Rowe of St. Paul, chairman of the game and fish committee, moved that the house take a recess until 3 o'clock. There were cries of opposition. H. G. Hicks of Minneapolis said the evening sessions are a farce. A few members came up and nothing was accomplished. "Members are not present at all," he said. "These evening sessions are a disgrace. Get here at 9 o'clock in the morning and work until supper time and you will do much better."

"Well I have a bill on the calendar," said Mr. Rowe, "and I want to get to it. If you will pass it now I will withdraw the motion." The bill was taken up and passed and then the house adjourned for the day.

"JUDGE" PERKINS IS FREED

Colored Justice of the Peace Worries District Attorney in Trial by Rare Eloquence.

Judge J. C. Perkins, colored, worsted the district attorney yesterday in a case in county court in which Perkins was himself both defendant and counsel.

Perkins was arrested on the instance of Mrs. Martell, from whom he had leased a portion of land on French Island. He was charged with the malicious destruction of a fence on this property. Mrs. Martell claimed that Perkins had torn down the fence, in order to "get back" at her for an old grievance, but had later put it up again, fearing that Mrs. Martell would cause trouble.

The case was brought because the plaintiff claimed that the fence was as good as before torn down by the defendant.

Perkins, who has a smattering of legal knowledge waxed eloquent during the trial and the spectators were entertained by a speech abounding in big words and legal phrases. The judge was so visibly affected by the speech of the defendant that he dismissed the case.

SALOON MEN FOXY

DARLINGTON LIQUOR DEALERS AGREE TO HAVE A TIGHT TOWN

DARLINGTON, Wis., April 20.—After many years of open town, Darlington is to have the lid put on. Strangest of all, the saloon men are putting this same lid on themselves. At a meeting of the saloon men an agreement was signed whereby they all agree to obey the state and city laws governing their business, closing at the prescribed time in the evening and keeping closed all day Sunday.

Just what caused this spasm of virtue is not known, but perhaps the fact that the recently elected council announced their intention of enforcing the law had something to do with it. The saloon men, it is reported, also agreed to raise the price of beer.

The outcome of the closing agreement will be watched with some considerable interest, particularly so as one clause of the agreement calls for the observance of law by other business men.

RACINE MIDNIGHT CLOSING

RACINE, Wis., April 20.—The 135 saloon men in this city were notified yesterday that hereafter they must close their places of business at 12 o'clock at night, as that any violation of the law will be followed with prosecutions. Reports have come in that many saloons violated the ordinance for months.

D., April 19.—Andrew Sundt, a farmer whose home was about three miles from Thompson's Grove, near Baltic, north of Sioux Falls, was accidentally shot and almost instantly killed by Willie Thompson, the 16-year-old grandson of John Thompson, a well known pioneer. Sundt walked about sixty feet to the Thompson home, saying "I'm shot." Mrs. Thompson told him he had been hit down. FARMERS OF THIS VICINITY ARE RUSHING SPRING WORK

LATE SEASON DELAYED THEM

But Warmer Weather Is Now Expected and the Work of Getting in Shape Is Begun

The farmers of this vicinity are now attending to their spring seeding work and in spite of the lateness of the season anticipate getting things into shape within another week.

There is a large amount of tobacco being planted in western Wisconsin this spring and the farmers expect to realize a big profit from the culture of the weed. The principal tobacco country last season was Vernon county, but La Crosse promises to eclipse Vernon this season.

No changes were noted in the local market prices today.

Even a blind man can find trouble without much difficulty.

DOERFLINGER'S

WAKE UP! A GENUINE BARGAIN CALL
GREAT 1 DAY UP AND DOWN SALE

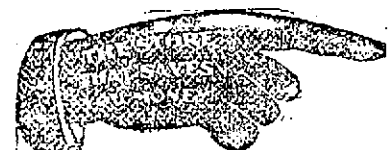

If you want bigger, better and more bargains than you ever had offered you in one single day attend this Great one Day Up and Down Sale which begins at 8 o'clock and continues until 6 o'clock in the evening. Carefully note the change of prices every hour. Some go up, but most of them go down. Every item at its highest price is a bargain and at its lowest price is far below the actual cost of manufacture. We can't promise how long the lots will last. Some may last thru the entire day and some may last only a few hours. Every item should be carefully studied and note the hourly change. Don't depend upon getting all of these bargains at their lowest price, for chances are that most of the lots will be cleaned up or the assortment broken long before the last drops in prices. To illustrate the plan we will take for example, the first item. Grey enameled Preserve Kettles regularly selling at 50c, from 8 to 9 o'clock we offer your choice at 39c, every hour the price drops 3c, but the quantity lessens. At 5 o'clock the price drops 15c. It may happen that but few of them will be left at this time. Perhaps they will be cleaned up long before this time. Remember there are many items where the prices raise each hour, but the assortment in each becomes broader as the price jumps up. Then again there are some items where the prices go up and down each hour. At all events it would be well to come early, watch the opportunity and buy when your judgment dictates. Carefully read every item and when you come bring this advertisement with you to avoid all mistakes.

The earlier you come the wider your choice. The longer you stay the bigger the bargains, but the fewer there'll be. It's like getting gold dollars at a discount. You will recognize the fact at any hour of the day you are here. Be on hand promptly Monday when the doors swing open at 8 o'clock. Wake up! It's a genuine bargain call.

**FOR ONE DAY ONLY
MONDAY, APRIL 22**

Don't let anything interfere with your coming. We are giving you early notice of this great bargain feast so that you will have no other engagements to interfere with your coming on time. Come in the morning, later if you must, but not too late. Remember we can't promise these lots to last, but we are of the belief that there will be enough for all comers.
